**GENERAL BACKGROUND**

CHA’s Resident Services Division is charged with supporting adults on the path to self-sufficiency, which includes making financial education available to adults and seniors. Financial education is a crucial skill set for all adults. Minimizing financial risk and exposure (e.g., payday loans, credit card debt, past due rent/utilities, etc…) and maximizing sound financial decisions (e.g., free or low-cost bank accounts, credit repair, identity protection, informed consumerism, etc…) help to provide stability to households and empowers families to take ownership over their personal finances. Depending on where residents are in terms of their goals, financial education can help individuals maintain lease compliance, reduce their dependence on subsidies and increase self-sufficiency.

EverFi offers cloud based financial education tools to communities across the nation and is the established provider of financial education programs for youth participating in many programs associated with the Mayor’s Summer of Learning initiatives that CHA also partners in, such as the Summer Youth Employment Program. The turnkey curriculums to be provided by EverFi will be available to up to 10,000 CHA users (youth, adults and seniors) per year and will provide a digital badge to all successful completers. Additionally, EverFi’s program tracking will provide measurable impacts of participants’ knowledge gains by using pre- and post-assessments, completion statistics and attitudes and behavior around specific personal finance topics.

The Board action recommended in this item complies in all material respects with all applicable Chicago Housing Authority board policies and all applicable federal (HUD) procurement laws.

The Deputy Chief Housing Officer of Resident Services concurs with the recommendation to enter into a contract with EverFi for a cloud based financial education platform.
