The A/E agrees to provide complete architectural and engineering services in connection with Projects awarded by Task Orders in accordance with the provisions herein as are usually and customarily performed, rendered or done by architects or engineers preliminary to, and in connection with, the preparation of all drawings and specifications, the preparation of related contract documents, assistance in obtaining construction bids and permits, construction administration activities, close out and warranty professional and general service as the Architect of Record for such construction activities at the assigned Sites(s) as set forth in a Task

Order. The A/E also agrees that its Construction Documents resulting from each awarded Task Order shall meet all Applicable Laws.

The A/E understands and agrees that pursuant to the RFP No. 13-01160, the CHA will enter multiple Indefinite Delivery Indefinite Quantity ("IDIQ") Task Order based Master Agreements and that each A/E under such Agreement will have opportunities for Task Orders under two processes.

The A/E, if selected to perform A/E services (Services) pursuant to a Task Order shall act as the prime contractor and be solely responsible for the scope of work assigned in each Task Order. The A/E will be required to work with the CCD staff to satisfy the contracting objectives of awarded Task Orders.

1. Administrative Ordering Procedures.

The CHA intends to have two (2) ordering processes for the task order work issued under the contracts, depending on CHA's Independent cost estimate of the required Project. The two (2) ordering processes are described below.

a. **Process No. 1 – Task Orders valued at \$350,000 or less.**

i. **Establishment of List Order of Selected A/E Firms Using a Random Selection Process**

- A. The Contracting Officer shall establish a list order of the selected A/E firms using a random selection process at the time of contract award.
- B. Each task order will be offered to the A/E firm in the order they appear on the list. The first task order will be offered to the A/E firm first on the list, the second task order will be offered to the next A/E firm on the list and so on. Once the CHA reaches the end of the list, the CHA shall start at the beginning of the established list and continue to offer task orders to the next A/E firm on the list. The CHA does not anticipate creating a new random list each time it reaches the end of the list.
- C. In the event an A/E firm is unable to accept or perform a task order, or the CHA is unable to come to agreement on the work or price, the CHA will move to the next A/E firm on the list and offer the task order to that firm. The CHA will offer the next Task Order to the A/E firm on the list following the A/E firm awarded the last Task Order.

ii. **Procedures for Task Orders valued at \$350,000 or less**

- A. A Scope of Work for the A/E services (as described in Article VI herein) ordered pursuant to a Task Order Proposal Request ("TOPR") will be prepared and provided to the A/E.

- B. The Owner shall present each TOPR to the A/E next on the established list of selected A/E's for work that arises throughout the CHA's portfolio. The Owner shall give that A/E the first opportunity to prepare and submit a proposal to perform the TOPR work.
- C. On the basis of the Scope of Work, the A/E shall prepare and submit within three (3) business days, unless otherwise directed by the Owner, a proposal to perform the TOPRs work for a Firm Fixed Fee.
- D. The Owner, at its discretion, may not finalize a TOPR with the A/E for Task Order work next on the established list if any of the following conditions occur, including, but not limited to:
 - 1. The A/E fails to submit a proposal to perform the Task Order work within three (3) business days, or within some other longer timeframe specified by the Owner;
 - 2. The Owner determines that the A/E's pricing is excessive for the Task Order work, and the parties cannot come to an agreement on a Firm Fixed Fee for Task Order work within a specified time set forth in TOPR; and
 - 3. The Owner determines that the A/E's proposed staffing or work plan to perform the Task Order work will not meet the Owner's needs for the Project, or will not be advantageous to the Owner.

iii. There shall be no additional compensation for all time and effort required of an A/E to formulate their proposal in response to TOPR, including, but not limited to, any site visits and consultations required to determine the scope of work necessary to price the proposal. The A/E's proposal shall also include proposed durations for the Services to be performed under each Task Order. The Owner reserves the right to negotiate the A/E's Firm Fix Fee amount and durations prior to its acceptance of the proposal and issuance of a Task Order.

b. Process No. 2 – Request for Services (RFS) Competitive Proposal for A/E services valued at more than \$350,000 to a maximum of \$750,000

The Owner shall offer RFS for A/E services valued at more than \$350,000 to a maximum of \$750,000 to all A/E firms selected as part of the RFP No. 13-01160 solicitation. A/E services valued in excess of \$750,000 are not the subject of this solicitation.

i. Request for Services.

From time to time, the CHA may issue an RFS that will describe the scope of work that shall be governed by the Contract. The RFS will set forth:

- A. A scope of work;
- B. A schedule of work;
- C. Any necessary background information needed for the Project;
- D. The required completion date.

ii. Task Ordering Procedures for RFS Competitive Proposals.

- A. A scope of work for Services to be awarded pursuant to a RFS will be prepared by CHA.
- B. The Department of Procurements and Contracts ("DPC") representatives will contact all A/E's with a RFS and, if required, all A/E's shall participate in a site visit.
- C. On the basis of the scope of work, with input from the site inspection by the A/E, the A/E will forward a proposal for performing the scope of work on a Firm Fixed Fee basis.
- D. The A/E will have a fair opportunity to be considered for each RFS issued under the Contract up to the not-to-exceed amount of compensation under the Contract, except as provided for in paragraph (a) below.
- E. The A/E agrees to submit proposals to DPC in response to each RFS that will be issued by the CHA under this Contract.

iii. Task Order Selection Criteria.

The following factors will be considered in the awarding of RFS Task Orders:

- A. Quality of the A/E's Task Order proposal for performing the RFS Task Order work, including:
 - 1. Proposed price or cost for the RFS Task Order work;
 - 2. Proposed duration to perform the RFS Task Order work; and
 - 3. Past performance on earlier RFS Task Orders issued under any Contract with the CHA, including quality, timeliness, cost control and adherence to CHA compliance requirements, Section 3 and M/W/DBE.
 - B. Potential impact on other Task Orders awarded to an A/E.
- iv.** If the A/E chooses not to respond to a RFS, a written notice with the reason it is not responding must be submitted to the CHA by the deadline to respond to such RFS. CHA reserves the right to accept or reject your written notice. Rejected notice will count as a failure to respond to the RFS.
- v.** The A/E may elect not to respond to up to a total of two (2) RFSs during each Contract year. Submitting a Proposal/Work Plan after the submission due date required by a RFS shall be considered a failure to respond to a RFS. Failure to respond to three (3) RFS' during a contract year shall be grounds to

terminate the Contract for Cause.

- vi. The CHA's acceptance of a Proposal/Work Plan to a RFS will be demonstrated by the issuance of a Task Order and a Notice-to-Proceed signed by the Director of Procurement and Contracts, or his/her designee, which directs the A/E to perform the Services in accordance with the RFS Task Order. The A/E will not commence Services, and the CHA will not be liable for any costs incurred by, or for payments to be made to, the A/E without a executed Notice-to-Proceed. All approved Work Plans will be governed by the terms and conditions of the RFS Task Order. A RFS Task Order will be interpreted in the following order of precedence: the terms of the Contract, RFS, an approved Work Plan and this RFP. Any terms and conditions in a Work Plan submitted by the A/E, which otherwise conflict with, are inconsistent with, or address matters not addressed in the Contract or RFS are void and of no effect on the CHA (notwithstanding any other approval contemplated or provided for under the Contract), unless accepted in writing by the Director of Procurement and Contracts as an amendment to the RFS Task Order.
- vii. The A/E acknowledges and agrees that the CHA may select from among those Proposal/Work Plans submitted in response to a RFS the Proposal/Work Plans deemed to be in the best interests of the CHA, or may reject any and all Proposal/Work Plans submitted in response to a RFS. The A/E further acknowledges and agrees that the Contract and any Work Plan may be subject to HUD approval and that, if such approval is required, the A/E will not perform any Services relating to a Work Plan until such approval is obtained.
- viii. Deadlines for Submittal of Proposals and Work Plans. Proposals/Work Plans for the RFS Services shall be submitted within (10) business days of the issuance of the RFS. Requests for Information ("RFIs") shall be due on the second business day following the site visit, if applicable. Failure to provide a Proposal/Work Plan on a timely basis may result in rejection of the Proposal/Work Plan.
- ix. Negotiation. The CHA reserves the right, at its option, either to accept a proposal and Work Plan submitted by the A/E firm without further negotiations.

c. Procedures applying to both TOPRs and RFSs

- i. **Exceptions to Task Order Selection Consideration applies to both ordering processes.**

CHA's Contracting Officer shall give each A/E a fair opportunity to be

considered for a RFS Task Order, unless one of the following exceptions applies:

- A. The CHA's need for the services is so urgent that providing a fair opportunity to an A/E would result in unacceptable delays (due to a public exigency or emergency, in accordance with 24 C.F.R. 85.36(i)(B));
- B. The Task Order must be issued on a non-competitive basis in the interest of economy and efficiency, because it is a logical follow-on to the Services being performed under a previously issued Task Order, provided that all A/E's were given a fair opportunity to be considered for the original award if a RFS Task Order; or
- C. It is necessary to place a Task Order to satisfy an A/E's minimum guarantee in its Contract.
- D. Any proposed utilization of the Exceptions to Task Order Selection Considerations must have the prior written approval of the CHA's Contracting Officer.

ii. Response to RFS applies to both ordering processes.

- A. The A/E will respond to a RFS by submitting a Firm Fixed Fee Proposal and Work Plan to the Department of Procurement and Contracts, which shall describe, as applicable:
 - 1. The A/E's approach to performing those Services;
 - 2. A work break down structure, if applicable, for completion of Services and a list of the Deliverables to be provided;
 - 3. A schedule for delivery;
 - 4. A staffing schedule and list of subcontractors to be utilized;
 - 5. A Firm Fixed Fee Proposal;
 - 6. The requisite MBE/WBE/DBE and Section 3 Utilization Plans; and
 - 7. Certificate of applicable Insurance(s).
- B. All Work Plans submitted in response to a RFS shall include a schedule of milestone events, work and deliverables, personnel and reimbursable to be assigned to tasks, a list of subcontractor(s) as appropriate, the schedule of task reporting, and recommendations for other or future work not included in the Task Order RFS as appropriate.
- C. Letters A. – G. above shall all conform to the terms of the RFS and the terms and conditions of the Contract. The Firm Fixed Fee Proposals and Work Plans will constitute irrevocable offers for a period of one hundred eighty (180) calendar days after receipt by the CHA. After receiving all proposals, the CHA, in its sole discretion, may choose not to award a RFS Task Order. Any and all costs associated with the preparation of

Proposals/Work Plans will not be reimbursable (under this Task Order.)

- D. The A/E services (as described in Article V herein) will be ordered by issuance of Task Orders by the CHA's Capital Construction Department through the DPC on the Owner's Purchase Order forms. The A/E shall not proceed with any Services required by a Task Order until a Notice to Proceed is issued. The Notice to Proceed shall provide begin dates and end dates for the Services required under each Task Order. All Task Orders are, subject to the terms and conditions of the Contract. The Contract's terms and conditions shall supersede those appearing on the reverse side of the Owner's Purchase Order forms that are maintained for the Owner's records, as well as the terms and conditions on a Task Order. If mailed, a Task Order is considered "issued" when the Owner deposits the order in the mail. Orders may not be issued orally, but may be issued by facsimile, or by electronic commerce methods.
- iii. CHA will review each submitted proposal and issue a Task Order to the A/E whose Firm Fixed Fee Cost Proposal/Work Plan is deemed to be in the best interest of the CHA, unless the CHA, in its sole discretion, chooses not to award a Task Order.
- d. The A/E acknowledges and agrees that:
 - i. The CHA is under no obligation to issue any work pursuant to a RFS;
 - ii. The level of Services requested may vary by Project; and
 - iii. The CHA, at the sole discretion of the CHA's Contracting Officer, may enter into similar agreements with other A/E's and award work to them pursuant to a RFS, or enter into other agreements for A/E professional services pursuant to separate procurements.

Project Closeout Fee Payments:

Payments will be a lump sum payment made when all Deliverables and documentation required under the Task Order are received from the A/E and accepted by the Owner.

Post Completion Fee Payment:

shall be negotiated based on the cost principles stated in the federal regulations at 48 CFR Subpart 31.2 and conform to the Contract pricing provisions of 24 CFR 85.36 (f).

2. **Additional Services.** The Owner shall perform a cost or price analysis, as required by federal regulations [24 CFR 85.36(f)], prior to the approval of a proposal for Additional Services. Such Additional Services shall be within the general scope of services covered by this Agreement. The A/E shall provide supporting cost information in sufficient detail to permit the Owner to perform the required cost or price analysis.

3. **Restrictive Plans and Specifications.** In accordance with 24 CFR 85.36(c)(3)(i) and contract agreements between the Owner and HUD, the A/E shall not require the use of materials, products, or services that unduly restrict competition.

4. **Design Certification.** Where the Owner is required by federal regulations to provide HUD a A/E certification regarding the design of the Project [see 24 CFR 968.235], the A/E shall provide such a certification to the Owner.

5. **Retention and Inspection of Records.** Pursuant to federal regulations [24 CFR 85.26(i)(10) and (11)], the A/E shall grant the Owner, HUD, the Comptroller General of the United States, or any of their duly authorized representatives, access to any books, documents, papers, and records of the A/E which are directly pertinent to this Agreement for the purpose of making an audit, examination, excerpts, and transcriptions. 6. **Copyrights and Rights in Data.** Currently HUD regulations pertaining to copyrights or rights in data do not apply to contracts with architects and engineers [see 24 CFR 85.36]. The Owner may set minimum standards of conduct where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards of conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the Owner's officers, employees, or agents or by the A/E or its agents. The Owner may, within regulation, provide additional prohibitions relative to real, apparent, or potential conflicts of interest. Neither the Owner nor the A/E, nor any of their sub-consultants shall enter into any contract, subcontract, or agreement, in connection with the Project in which any member, officer, or employee of the Owner, the A/E, or any of their sub-consultants, or any member of the governing body of the locality in which the Owner was activated, or in any other public official of such locality or localities who exercises any responsibilities or functions with respect to the Project during his/her tenure or for one (1) year thereafter has any interest, direct or indirect. If any such present or former member, officer, or employee of the Owner, the A/E, or any of their sub-consultants, or any such governing body member or such other public official of such locality or localities involuntarily acquires or had acquired prior to the beginning of his/her tenure any such interest, and if such interest is immediately disclosed to the Owner and such disclosure is entered upon the minutes of the Owner, the Owner, with the prior approval of the Government, may waive the prohibition contained in this subsection; provided, however, that any such present member, officer, or employee of the Owner shall not participate in any action by the Owner relating to such contract, subcontract, or arrangement.

No member, officer, or employee of the Owner, no member of the governing body of the locality in which the Project is situated, no member of the governing body of the locality in which the Owner was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the Project, during his/her tenure or for one (1) year thereafter, shall have any interest, direct or indirect, in this Agreement or the proceeds thereof.

The Limitation on Use of Appropriated Funds to Influence Certain Federal Contracting and Financial Transactions Act, Section 1352 of Title 31 U.S.C., provides in part that no appropriated funds may be expended by the recipient of a federal contract, grant, loan, or cooperative agreement to pay any person, including the A/E, for influencing or attempting to influence an officer or employee of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the

EXHIBIT B

A/E CONSTRUCTION COST ESTIMATES

A/E ("A/E") Construction Cost Estimates

The A/E shall prepare, during all Phases of Basic Services set forth in Section B(3) ("Phases") of this Agreement, all Construction Cost Estimates based on the general guidelines included in the following procedure and as required by the Chicago Housing Authority's ("CHA's") Capital Maintenance Program ("CMP").

TERMS AND DEFINITIONS

Term

Construction Cost Estimate

Definition

The probable cost to construct or put in place Work outlined in Design or Construction Documents. This Construction Cost Estimate shall include, but shall not be limited to:

- a. indirect charges, which include, but is not limited to, site overhead charges, home office charges, bonds and insurances, temporary construction, supervisory and management staff;
- b. direct cost of performing the Work;
- c. allowances, including the Owner's furnished items and allowances for undefined Work; and
- d. any contingencies (depending on the Phase or stage at which the Construction Cost Estimate is being prepared).

In addition, the Construction Cost Estimates shall follow the following guidelines:

- a. All Construction Cost Estimates shall be organized according to the WBS (Work Breakdown Structure) set forth by the CSI (Construction Specifications Institute) format.
- b. All Construction Cost Estimates shall be prepared using the latest version of the Construction Documents and Construction Cost Estimate Template as described herein and in Appendix A, as provided by the Owner.
- c. All Construction Cost Estimates shall be of appropriate and adequate level of detail for review and approval by the Owner.
- d. Any and all escalation must be applied directly to associated costs affected.
- e. Any and all Construction Cost Estimates or "Statements of Probable Construction Cost" submitted by the A/E shall have all associated construction costs assembled, broken-down, and shown by way of labor, material, equipment and other items at their corresponding 'unit of measure.'
- f. All estimates are to be submitted in both Excel and .pdf formats.

Contingency

An allowance of resources (money, time, materials or other) to offset any impact due to unknown conditions, circumstances or lack of information.

- Following a design that is identified by a WBS, the contingency should provide more information and less contingency.
- Category shall not be used to cover-up poor estimating practices (i.e. careless or unjustified padding of cost elements).

RESPONSIBILITIES

A/E

- Prepare all Construction Cost Estimates using the latest version of the Construction Documents and Construction Cost Estimate Template as described in herein and in Exhibit C provided by the Owner. This template contains both a subcontractor portion and a general contractor portion, each with a detailed estimate portion and a summary estimate portion. The template is to be used for both initial proposals and change orders.
- Prepare preliminary Construction Cost Estimates (during the Schematic Design/Preliminary Study Phase).
- Prepare Construction Cost Estimates (as described herein) and analyses (as described in the Design Development Phase).
- Prepare final Construction Cost Estimates (during the Construction Document and Bidding and Contract Document Phase), which should be based upon the same Construction Documents submitted to bidding contractors.

PROCEDURE

The following general steps are involved in the estimating process:

1. Provide an estimate of expected reasonable cost for the scope of Work defined and quantified from the Agreement.
2. Determine a reasonable expected local market cost based on the time of delivery for the service or product as defined by the Agreement.
3. Escalate the cost of the Work over the scheduled time for the Work to be implemented and applied directly to associated cost affected, NOT as a separate line item.
4. Define and quantify the risk associated with the Work defined, and develop a reasonable cost contingency for the defined risk.
5. Include sufficient contingency to mitigate cost impacts due to identifiable risk, unforeseen conditions, and cost exposure through completion of the defined scope of Work, set forth in the Agreement.
6. Provide a certification that the Project design and design estimates match the scope and budget requirements of the Project defined in the Agreement.

The A/E shall provide a Construction Cost Estimate to accompany each deliverable task set forth in the A/E's Agreement. Each Construction Cost Estimate shall be prepared and submitted to the Owner's Project Manager with the task deliverable and shall include, but not be limited to, the following:

1. Scope definition based on each Phase of the design documents. The Construction Cost Estimate must be consistent with the level of information provided by the design documents.
2. List scope of work, products and services, based on each Phase of the design documents.
3. Quantify listed scope of Work and define the units of measure for each work activity.
4. Estimate the craft labor rates (which include labor burdens) for crafts required in crews necessary to implement the Work.
5. Estimate construction equipment rates necessary to execute the Work.
6. Estimate the construction crews to be utilized in the Construction Cost Estimate, (which includes craft labor and construction equipment) required to execute the Work.
7. Estimate productivity rates.
8. Define Project specific subcontractors, fixed plant equipment, discreet project systems, and subsystems.
9. Escalation factor(s), which are qualitative, quantitative, and definable. The A/E shall use its best efforts to identify these factors and apply them to the associated costs of construction affected (when applicable).

10. Any acceleration costs that would be required, based on the Project schedule that is qualitative, quantitative, and definable. The A/E shall use its best efforts to identify these factors and apply them to the associated costs of construction affected (when applicable). The logic and "means & method" used should be clearly stated.
11. Define and quantify indirect cost associated with the production and delivery of the stated scope of Work (including, but not limited to, mobilization, demobilization, project supervision, technical services, administrative services, job site automation cost, vehicles, temporary job facilities, communication fees, reproduction, shipping and delivery services and security)
12. Develop, determine, and identify contract overhead associated with the Project based upon specific market rates, and the general contractor's corporate cost for the Chicago area. These associated costs should be appropriately allocated to Division 01 – General Requirements as set forth by the CSI (Construction Specifications Institute).
13. Define fee, margin and/or profit normally expected for the services provided.
14. Define a Construction Cost Estimate contingency based on exposure of items not reflected in the scope definition documents, but may be required to complete the intent of the Work to be performed, and unforeseen items of Work that may be defined later during design development.
15. Provide a narrative defining scope, bases, development, and content of the Construction Cost Estimate, including escalation, taxes, assumptions, exclusions and conclusions.

All A/Es may be required to provide alternative Construction Cost Estimates at any stage of a Project based on the stage of the Project's development life. The alternative Construction Cost Estimates shall comply with the appropriate procedure commensurate with the stage of the Project.

EXHIBIT B

APPENDIX A- CONSTRUCTION COST ESTIMATE TEMPLATE

[SEE ATTACHED]

INSTRUCTIONS

- 1 This one template is to be used for both initial proposals and change orders, and by both the contractor and the PDC too.
- 2 It is recognized that the PDC may not know what work is to be subcontracted and what is to be self-performed by the general contractor. Thus the PDC can place all the cost items in Sections II and III for the initial proposal. For revisions of the initial proposal, cost items may be moved/placed in the Subcontractor Section (Section I) if the PDC knows which items are to be subcontracted.
- 3 Note that the format used is the 2004 CSI Masterformat, as updated in 2012.
- 4 The estimator may hide lines (or entire CSI Divisions) that are not being used to make the estimate smaller. The user may click on the "+" or "-" buttons on the far left-hand side to expand or contract CSI divisions. Alternatively, select "Data" on the tool bar menu, then select "Group", which allows ranges of cells that are tied together to be collapsed and expanded.
- 5 The estimator may add lines for new items. A line may be inserted anywhere but, MUST be below the line that contains the CSI Division title in it, and MUST be above the blank line at the bottom of each CSI Division; this ensures that the addition formula for each column (Material, Labor, Equipment, and Other) remains correct. The estimator may copy an existing line to a blank line (this ensures the same formulas and formatting is in the new line); the estimator would then change the description and other pertinent information to reflect the new cost item.
- 6 The spreadsheet is not paginated, as this would depend upon the number of lines in the estimate to make the best appearance. The spreadsheet does have page breaks between Sections I and II and between Sections II and III.

TITLE 44: GOVERNMENT CONTRACTS, PROCUREMENT AND PROPERTY MANAGEMENT

SUBTITLE B: SUPPLEMENTAL PROCUREMENT RULES

CHAPTER X: DEPARTMENT OF HUMAN RIGHTS

PART 750 PROCEDURES APPLICABLE TO ALL AGENCIES

SECTION 750.APPENDIX A EQUAL EMPLOYMENT OPPORTUNITY CLAUSE

Section 750.APPENDIX A Equal Employment Opportunity Clause EQUAL EMPLOYMENT OPPORTUNITY

In the event of the contractor's non-compliance with the provisions of this Equal Employment Opportunity Clause or the Act, the contractor may be declared ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and the contract may be cancelled or voided in whole or in part, and other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation. During the performance of this contract, the contractor agrees as follows:

- 1) That he or she will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, physical or mental disability unrelated to ability, military status or an unfavorable discharge from military service; and, further, that he or she will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any underutilization.
- 2) That, if he or she hires additional employees in order to perform this contract or any portion of this contract, he or she will determine the availability (in accordance with this Part) of minorities and women in the areas from which he or she may reasonably recruit and he or she will hire for each job classification for which employees are hired in a way that minorities and women are not underutilized.
- 3) That, in all solicitations or advertisements for employees placed by him or her or on his or her behalf, he or she will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, physical or mental disability unrelated to ability, military status or an unfavorable discharge from military service.
- 4) That he or she will send to each labor organization or representative of workers with which he or she has or is bound by a collective bargaining or other agreement or understanding, a notice advising the labor organization or representative of the contractor's obligations under the Act

and this Part. If any labor organization or representative fails or refuses to cooperate with the contractor in his or her efforts to comply with the Act and this Part, the contractor will promptly notify the Department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations under the contract.

- 5) That he or she will submit reports as required by this Part, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Act and this Part.
- 6) That he or she will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and the Department for purposes of investigation to ascertain compliance with the Act and the Department's Rules and Regulations.
- 7) That he or she will include verbatim or by reference the provisions of this clause in every subcontract awarded under which any portion of the contract obligations are undertaken or assumed, so that the provisions will be binding upon the subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply with the provisions. In addition, the contractor will not utilize any subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.
