II. INSTRUCTIONS FOR BIDDERS

I. BID SUBMITTAL REQUIREMENTS (manual submission): The Bid Submittal must include the following documents:

A. These BF Pages and other documents in the following form:

- i. **Enter his/her firm's name** in the space provided on Page BF/1 of this Specification; and
- ii. **Submit ONE (1) original and ONE (1) copy**, of the "Bid Submittal" form comprising all BF pages (including the Bidder's completed BF pages for Sections VII and VIII). PLEASE NOTE: Each BF Page **within both copies** shall bear an original (not photocopied) signature; and
- iii. **Submit ONE (1) ORIGINAL** of all required M/W/DBE and Section 3 documents; and
- iv. **Submit ONE (1) ORIGINAL** of all other required bid documents; and
- v. Acknowledge on Page BF/2 receipt of any Addenda issued.

Failure to submit the documentation set forth above in Section I(A)(i)-(vi) may result in the bid package being deemed non-responsive and therefore ineligible for award.

B. GENERAL CONTRACTOR LICENSE: In addition to all other applicable licenses and certifications, the general contractor is required to submit with its bid a copy of bidder's current valid (Class B or above) General Contractor License issued by the Department of Buildings of the City of Chicago. The absence of the required license shall cause a bid to be deemed non-responsive and therefore ineligible for award. Any Contractor that does not have a currently valid license from the City of Chicago shall also be deemed non-responsive. Applications are NOT accepted.

C. BID SECURITY: Each individual bid must be accompanied by a **Bid Bond** in the amount of **5%** of the total amount of the submitted bid **or** a certified check in the same amount, payable to the "Chicago Housing Authority". If the bid and bid security have not been received by the CHA prior to the time of the bid opening, the bid will not be considered. Checks from unsuccessful Bidders will be returned as soon as possible after the opening of bids.

D. BIDDER PROFILE INFORMATION: Each individual bid must be accompanied by a summary of the Contractor's qualifications to complete the work described in the Bid Package, which summary shall include, at a minimum, the following documents:

- i. the resumes of the Contractor's Project Team (including the superintendent, project manager, and project accountant, or equivalent); and
- ii. a list of all the Contractor's subcontractors; and
- iii. a list of the Project Team of the Contractor's subcontractors;
- iv. a detailed description of not less than three (3) jobs completed by the Contractor in the last five (5) calendar years of a substantially similar size and scope and requiring substantially similar work and level of responsibility, together

BF/Page 3

CHICAGO HOUSING AUTHORITY

- with the contact information of the owner's representative for each of these jobs (including name, company name, address, telephone number, fax number, and e-mail address); and
- v. the same information described in Paragraph (D) (iv) above for at least one (1) job performed by each primary subcontractor in the last five (5) calendar years. Failure to submit the documentation set forth above in Section I(D)(i)-(v) may result in the bid package being deemed non-responsive and therefore ineligible for award. The CHA may also, on the basis of the Bidder's profile information submitted, find that there exists an insufficient amount of information to clearly determine whether a Bidder or its subcontractor(s) possess the ability to perform successfully under the terms and conditions of the Contract Documents, and the CHA may therefore determine the bid package is ineligible for award on the basis of insufficient evidence regarding responsibility.

FINANCIAL STATEMENT: The Respondent/Financially Responsible Party shall demonstrate its financial responsibility by submitting the most recent two years of audited, reviewed or compiled financial statements prepared by a third party licensed Certified Public Accountant (CPA). Listed below are the minimum acceptable required documents based upon the amount of the procurement:

For Procurements of Less Than \$2.5 Million: The Respondent must provide **Compiled** Financial Statements which consist of:

- Accountant's Report
- Balance Sheet (last 2 years)
- Income Statement (last 2 years)
- Cash Flow Statement (last 2 years)
- Financial Statement Footnotes (if applicable)

Compiled financial statements represent the **most basic level of financial statements** prepared by a licensed certified public accountant. In a compilation, the certified public accountant assists management in presenting financial information in the form of financial statements and **does not provide any assurance** that there are no material modifications that should be made to the financial statements. The certified public accountant does not perform inquiry, analytical procedures or other procedures that would be performed in a review, or obtain the understanding of the entity's internal control, assess fraud risk or test accounting records as would be performed in an audit.

For Procurements of \$2.5 Million to \$10 Million: The Respondent must provide **Reviewed** Financial Statements which consist of:

- Accountant's Report
- Balance Sheet (last 2 years)
- Income Statement (last 2 years)
- Cash Flow Statement (last 2 years)
- Financial Statement Footnotes

Reviewed financial statements provide the user with comfort that the certified public accountant is not aware of any material modification that should be made to the financial statements for the statements to be in conformity with the applicable financial reporting framework. A review involves the certified public accountant performing analytical procedures and inquiries that will provide a reasonable basis for obtaining **limited assurance** that there are no material modifications required to the financial statements. A review does not require the certified public accountant to obtain the understanding of the entity's internal control, assess fraud risk or test accounting records as would be performed in an audit.

For Procurements of Greater Than \$10 Million: The Respondent must provide **Audited** Financial Statements which consist of:

- Auditor's Report
- Balance Sheet (last 2 years)
- Income Statement (last 2 years)

CHICAGO HOUSING AUTHORITY

- Cash Flow Statement (last 2 years)
- Financial Statement Footnotes

Audited financial statements provide the user with the **certified public accountant's opinion letter that the financial statements are presented accurately**, in all material respects, in conformity with accounting standards. The auditor is required to obtain an understanding of the entity's internal control, assess fraud risk, perform analytical procedures and test accounting records.

CHA will also evaluate the respondents based upon analysis of third party reporting agencies, regulatory agencies, bureaus, etc., as it deems necessary to determine the financial adequacy of the respondent entity and confirm that the entity is in good financial standing with governmental agencies.

Other considerations in the evaluation of the financial condition of respondents follow:

- Financial statements must be from a legal business entity (i.e. corporation, partnership, LLC, etc.).
- Newly created entities (partnerships, LLC's, etc.) must provide financial statements from the entity's general partner and/or any other financially responsible entity that collectively can demonstrate the capability to complete the contract.
- Internally prepared business entity financial reports generated by the respondent will not be accepted.
- Personal financial statements or tax returns will not be accepted.
- The CHA reserves the right to request additional information to complete the financial evaluation and review of any respondents.

- E. **FINAL COMPLETION FOR ALL WORK:** Is due upon the date set forth in the Notice to Proceed **two-hundred and seventy-five (275) calendar days** from the date set forth in the Notice to Proceed. The Contractor acknowledges and agrees that the final completion requirements set forth herein are minimum completion requirements that must be satisfied under the contract with the CHA.
- F. **CRITICAL PATH METHOD SUMMARY PROJECT SCHEDULE:** In evaluating this IFB, the CHA will determine the responsibility of each bidder and whether a particular bidder can complete the Work in the shortest time frame, which time frame shall not exceed the Final Completion Date for the Work as set forth in this IFB and in the Contract Documents. The Critical Path Method ("CPM") Summary Project Schedule to be submitted as part of the bid, and the Work Schedule, as defined in Paragraph 6 of the CHA's "Special Conditions of the Contract for Construction", is to reflect the following.

The Contractor shall furnish as part of this proposal a CPM Summary Project Schedule showing the proposed construction phasing and sequencing approach of the major scope items. This CPM Summary Project Schedule shall:

- Be submitted in a hard copy format;
- Be prepared using only Oracle Primavera P6 Professional Project Management version 6.2 or greater;
- Be prepared using the Critical Path Scheduling Method (CPM);
- Depict at least one critical path starting with the Notice To Proceed and ending with the Final Completion Date;
- Include critical tasks to be performed by the Owner, Prime Design Consultant, or others, for the completion of all Work; and
- Have each construction activity be resource loaded with the person-hours estimated necessary to complete the activity.

The CPM Summary Project Schedule dates for the elements cited in the project's IFB shall be met or enhanced.

For purposes of the CPM Summary Project Schedule to be submitted with this bid, the Contractor shall assume that:

- The date set forth in the Notice to Proceed will be on or around October, 2017; however, the CHA shall not be bound to issuing a Notice to Proceed by or for that date;
- The Final Completion Date for ALL WORK is **as shown above**.
- The building(s) will be available to the Contractor on the date(s) set forth in the Notice to Proceed.

CHICAGO HOUSING AUTHORITY

For additional details on how to submit required Schedules, please refer to Paragraph 6 and Paragraph 55 of the CHA's "Special Conditions of the Contract for Construction".

Failure to submit this CPM Summary Project Schedule in the requested software format, and prepared using only Primavera Project Planner® (P3 version 3.1), Primavera Project Management Contractor (P6) or Primavera SureTrak® software in hard copy, shall result in the entire Bid Package being deemed non-responsive.

A. PREPARATION OF BIDS – Construction:

- ii. **CHA FORMS and DOWNLOAD:** Bids must be submitted on the forms furnished by the CHA or on copies of those forms, and **must be manually signed**. - iv. If the solicitation requires bidding on all items, failure to do so will disqualify the bid. If bidding on all items is not required, Bidders should insert the words "no bid" in the space provided for any item on which no price is submitted; and
- v. Alternate bids will not be considered
- vi. Product substitutions will not be considered unless this solicitation authorizes the submission. Bidders are responsible for providing bids for products that fully meet the required specifications. Bidders may bid the referenced manufacturers OR EQUAL. Nevertheless, bidders **MUST** bid what the specifications require. The Architect of Record will only consider substitution requests after the award from the selected General Contractor.

B. WITHDRAWAL OF BIDS: No bid shall be withdrawn for a period of **one hundred eighty (180) calendar days** after the opening of bids without the consent of the CHA.

C. TAX: This bid shall **not** include charges for the Illinois Retailers' Occupational Tax (so called "Sales Tax") on direct sales to the CHA or on any material incorporated into or becoming part of the work; federal excise taxes; or federal transportation taxes. The CHA will provide all contract awardees with a tax Exemption Certificate.

D. FALSE STATEMENTS IN BIDS: Bidders must provide full, accurate, and complete information as required by this solicitation and its attachments. The penalty for making false statements in bids is prescribed in 18 U.S.C. 1001.

IV. BID OPENING AND REVIEW OF BIDS

A. BID OPENING: No bids will be accepted after the fixed date and time for the opening of bids, at which time all bids received will be publicly opened and read aloud. Failure to submit bid documents in the required quantity and properly executed may result in the bid being deemed non-responsive and rejected by the CHA for further consideration.

CHICAGO HOUSING AUTHORITY

Pre-Award Meeting may include, but not limited to:

V. AWARD: Contract Award – Sealed Bidding – Construction

- A. The CHA will evaluate bids in response to this solicitation without discussions, and will award a contract to the responsible Bidder whose bid, responsive and conforming to the solicitation, will be most advantageous to the CHA, considering the Lump Sum Base Bid Total and the price-related factors specified elsewhere in the solicitation.
- B. The CHA may waive informalities or minor irregularities in bids received.
- C. The CHA may accept any item or combination of items, unless doing so is precluded by a restrictive limitation in the solicitation or the bid.
- D. The CHA may reject a bid as non-responsive if the prices bid are materially unbalanced between line items or sub-line items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the CHA even though it may be the low evaluated bid, or it is so unbalanced as to be tantamount to allowing an advance payment.
- E. **The CHA reserves the right to reject any and all bids, or to reissue or withdraw this Invitation for Bid in the event that competition is deemed inadequate or that it is otherwise deemed to be in the best interest of the CHA. In such instances, the CHA reserves the right to seek procurement by means of non-competitive negotiation.**
- F. No Awards may be made to a contractor or firm that is on the list of contractors' ineligible to receive awards from the Authority or the United States, as furnished by HUD.
- G. The Bidder to whom the award is made will be notified as soon as practicable after the Authority approves award of the Contract. This written notification constitutes the Notice of Award and acceptance of the bid submitted.
- H. If written notice of the acceptance of this Bid is mailed, faxed, e-mailed or otherwise delivered to the undersigned within the time noted herein, or at any time thereafter before this Bid is withdrawn, the undersigned agrees to enter into a Contract with the Chicago Housing Authority with the Bid as accepted. The undersigned agrees to give a Performance and Payment Bond as specified in the Contract Documents, with good and sufficient surety or sureties, and to furnish the required insurance, all within five (5) days after given Notice of Award.
- I. Upon award of Contract, the Authority will process the Contract for final execution.

VI. NOTICE TO PROCEED: Following execution of the Contract and the Contractor's delivery of all information and documents required by the Contract Documents and otherwise reasonably required by the CHA's Department of Procurement and Contracts, the CHA will issue a Notice to Proceed (NTP) to the Contractor, which will set forth the date(s) for the official commencement of the Work described in this IFB and in the Contract Documents. Upon issuance of the NTP, the CHA will make the Project location(s) available to the Contractor for the start of the required Work.

CHICAGO HOUSING AUTHORITY

VII. TYPE OF CONTRACT(S) AND CONTRACT REQUIREMENTS

- A. **TYPE OF CONTRACT(S):** In selecting the lowest responsive and responsible bidder(s), the CHA will examine which bidder(s) offers the lowest responsive and responsible Lump Sum Base Bid Total among other criteria. The CHA anticipates awarding a **single Firm Fixed Price contract** under this solicitation based on the **Lump Sum Base Bid Total**.
- B. **TIME FOR PERFORMANCE:** Please refer to **I. CRITICAL PATH METHOD SUMMARY PROJECT SCHEDULE**. A Notice to Proceed will be issued by the CHA subsequent to contract execution. The work to be performed under this Contract shall be subject to and comply with the CHA's "Special Conditions of the Contract for Construction" and the HUD "General Conditions for Construction Contracts – Public Housing Programs" (Form HUD-5370).
- C. **PRE-CONSTRUCTION CONFERENCE:** The CHA will notify the Awardee(s) when and where the Pre-Construction Conference(s) will take place. **The Awardee(s) must attend this conference before entering the worksite or having materials delivered to the worksite.**
- D. **PERFORMANCE AND PAYMENT BOND:** Upon award of the contract by the CHA, the Contractor shall provide and pay for an **acceptable Performance Bond** in the amount of **100%** of the Lump Sum Base Total **or separate acceptable Performance and Payment Bonds** each in the amount of **50% or more** of the Lump Sum Base Total. **IMPORTANT: The surety must be a guaranty or Surety Company which appears in the U. S. Treasury Circular No. 570 published annually in the Federal Register**, and must, at a minimum, have an "A" rating in according to the A.M. Best Rating Guide. Assistance in securing the Performance and Payment Bond is available through the Small Business Administration, which encourages Minority Business Enterprises. The CHA shall not be responsible for the cost of the Performance and Payment Bond.
- E. **CERTIFICATE OF INSURANCE REQUIREMENTS:** Before commencing work, the Contractor and each Subcontractor shall furnish the Chicago Housing Authority with certificates of insurance showing the required insurance is in force and will insure all operations under the Contract. See Paragraph 36 of the HUD "General Conditions for Construction Contracts – Public Housing Programs" (Form HUD-5370) and the CHA's "Special Conditions of the Contract for Construction" for details on the required types and levels of insurance coverage.

In addition to any other provisions of this Contract or at law, the Contractor may immediately, and without notice, have all compensation withheld or suspended, be suspended from providing further Work, or be terminated for cause from this Contract for any lapse in coverage or material change in coverage pursuant to the requirements of Paragraph 36 of the HUD "General Conditions for Construction Contracts – Public Housing Programs" (Form HUD-5370) and the CHA's "Special Conditions of the Contract for Construction", for failure to furnish the CHA with a timely certificate or renewal of certificate, or for making an incorrect or a false representation with regard to provision of the insurance specified in Paragraph 36 of the HUD "General Conditions for Construction Contracts – Public Housing Programs" (Form HUD-5370) and the CHA's "Special Conditions of the Contract for Construction".

- F. **ONLINE CONTRACT COMPLIANCE SYSTEM:** The CHA maintains an online contract compliance system which provides various work-flow automation features to improve reporting processes. The online contract compliance system will be used to monitor contract compliance, and the contractor and its subcontractors shall be required to use the secure web-based system to submit all information related to compliance. Prior to commencing work, the CHA will provide the contractor access to its online contract compliance system.

Accordingly, the contractor expressly agrees that it, and its subcontractors, shall provide the required compliance data to the CHA via its electronic system available at <https://cha.diversitycompliance.com/>. The Contractor acknowledges that it and its subcontractors are responsible for responding by any noted response dates or due dates to any instructions or requests for information, and checking the electronic system on a regular basis to manage contact information and Contract records. The Contractor also acknowledges that it is responsible for ensuring that all subcontractors have completed all requested items with complete and accurate information and that their contact information is current. The Contractor shall flow down this provision to subcontractors at every tier.

G. SECTION 3 – COMPLIANCE REQUIREMENTS:

- 1. Contractors and their subcontractors may demonstrate compliance by committing to employ Section 3 residents and by subcontracting with Section 3 Business Concerns in accordance with the requirements of 24 CFR Part 135.

Section 3 Business Concern is a business concern under HUD Regulations:

CHICAGO HOUSING AUTHORITY

- a) 51 percent or more owned by section 3 residents; or
 - b) Whose permanent, full-time employees include persons, at least 30 percent of whom are currently section 3 residents, or within three years of the date of first employment with the Business Concern were section 3 residents; or
 - c) That provides evidence of a commitment to subcontract in excess of 25 percent of the dollar award of all subcontracts to be awarded to Business Concerns that meet the qualifications set forth in paragraphs (1) or (2) in this definition of "section 3 Business Concern."
2. Contractor and sub-contractors may demonstrate compliance with the requirements for contracting with Section 3 Business Concerns by committing to award to Section 3 Business Concerns at least 10 percent of the total dollar amount of the contract awarded to the contractor for building trades work for maintenance, repair modernization or development of public housing, or for building trades work arising in connection with housing rehabilitation, housing construction and other public construction and at least 3 percent of the total dollar amount of all other Section 3 covered contracts.
 3. In evaluating compliance with 24 CFR Part 135, contractors and their subcontractors have the burden of demonstrating to the greatest extent feasible their ability or inability to meet the goals set forth in 24 CFR Part 135 for providing training, employment and contracting opportunities to section 3 residents and section 3 Business Concerns.
 4. Contractors and their subcontractors are also encouraged to provide other economic opportunities to train and employ section 3 residents including, but not limited to, use of "upward mobility", "bridge" and trainee positions to fill vacancies, and hiring section 3 residents in part-time positions (24 CFR 135.40).

Documenting and Reporting

- a. Contractor agrees to comply with the above Section 3 requirements in accordance with the Contractor's Section 3 Utilization Plan, which shall be prepared by the Contractor and agreed to by CHA. CHA shall not be required to agree to the Contractor's Utilization Plan until the Contractor meets its burden to establish that it will comply with 24 CFR Part 135 and otherwise comply with CHA's Section 3 Policy (see http://www.thecha.org/pages/section_3/65.php or the copy included in the solicitation) as may be required. Contractor's Section 3 Utilization Plan as attached to this RFS is incorporated into the contract by this reference herein.
- b. The Contractor and its subcontractors shall provide all required compliance data with respect to Contractor's Section 3 requirements to the CHA via CHA's electronic system available at <https://cha.diversitycompliance.com/>. The Contractor and its subcontractors shall be responsible for responding to any requests for data or information by the noted response due dates, and shall check the electronic system on a regular basis to manage contact information and contract records. The Contractor shall also be responsible for ensuring that all subcontractors have completed all requested items with complete and accurate information and that their contact information is current.
- c. A Prime Contractor must utilize CHA's hiring system in order to fill any open Section 3 positions. The hiring system will automatically filter applicants to the Prime Contractor in order of preference, per HUD and this policy. The Prime Contractor, and any Subcontractors with a Section 3 hiring commitment, must complete their job posting through CHA's online hiring system. All new hires will be tracked through CHA's online hiring system and all new hires must be secured using this online system, which is used to assist the CHA to connect qualified applicants with Prime Contractors and Subcontractors.

This Section 3 Contract Provision shall flow down to each subcontract at every tier.

C. SECTION 3 REQUIREMENTS (Clarification)

CHICAGO HOUSING AUTHORITY

Section 3 has two minimum requirements that must be reflected in response to this RFP. Respondents cannot choose between the two and receive full points under the evaluation criteria. First, 30% of the new hires required for the project must be Section 3 residents. The term "Section 3 resident" is defined as (1) a public housing resident or (2) a low-income or very low-income person who resides in the metropolitan area. Second, 10% of the contract value must be subcontracted to Section 3 Business Concerns. A Section 3 Business Concern is a business (1) that is 51% or more owned by Section 3 residents; or (2) whose permanent, full-time employees include persons, at least 30% of whom are currently Section 3 residents, or within 3 years of the date of first employment with the Business Concern were Section 3 residents; or (3) that provides evidence of a commitment to subcontract in excess of 25% of the dollar award of all subcontracts to be awarded to Business Concerns that meet the qualifications set forth in (1) and (2).

If a Respondent has no plans or need to hire or subcontract, or can demonstrate that it is unable to hire or subcontract to fully meet the minimum requirements set forth above, the Respondent may offer other economic opportunities that directly benefit Section 3 residents or Section 3 Business Concerns (such as internships, mentor-protégé programs, contribution to the Section 3 Fund, etc.). To offer other economic opportunities, a Respondent's submittal must detail why it has no plans or need to hire or subcontract, or detail all of the efforts the Respondent has undertaken to hire or subcontract (including the names of the Section 3 residents or Section 3 Business Concerns that were contacted and why they could not be utilized for the project). Detail must also be provided to describe the other economic opportunity being offered and how it will benefit Section 3 residents or Section 3 Business Concerns.

Respondents that fail to clearly set forth these minimum requirements risk losing points under the evaluation criteria. Therefore, Respondents are urged to submit any questions regarding Section 3 prior to the proposal due date.

COMPLIANCE REPORTING SYSTEMS

The Chicago Housing Authority (CHA) utilizes B2Gnow and LCPTracker in order to monitor the compliance requirements for the M/W/DBE, Davis-Bacon, and Section 3 policy requirements. CHA's Section 3 Job Opportunities website is also in place to assist Prime Contractors and Subcontractors with Section 3 hiring requirements.

B2Gnow, LCPTracker, and the Section 3 Job Opportunities website are accessible to ALL CHA Prime Contractors (as well as Subcontractors) and each contractor is required to utilize the secure web-based systems for electronic submission of information related to M/W/DBE, Davis-Bacon, and Section 3 compliance.

KEY FEATURES:

- Automated communication with contractors via email regarding compliance issues.
- Submission of contractors' utilization reports online with automated tracking of contract goals and participation, as well as verification of subcontractor payments through the B2Gnow System.
- Certified Payroll Reporting online through LCPTracker eliminates paper reporting and streamlines the process for vendors and CHA staff.
- Section 3 Job Opportunities website automates the hiring process and is a required tool for Prime Contractors and Subcontractors to use for all new Section 3 hires.

- X. COST PER BUILDING AND INVOICE INSTRUCTIONS SUBMITTAL:** The CHA requires that this submittal include a breakdown of the Lump Sum Base Bid Total at the CHA BUILDING CODE LEVEL. The amount per building should be further broken down into general construction costs versus environmental remediation costs. (See "ENVIRONMENTAL REMEDIATION COSTS" below).

Upon the award of a contract, EACH invoice submitted by the Contractor must be limited to costs from a SINGLE Purchase Order ("PO"). If MULTIPLE POs are issued under the same contract number over the term of the contract, the Contractor cannot combine references from these multiple POs on the same invoice. Costs within an invoice must further be broken down by CHA Building Code. Failure to limit an invoice to items and lines from a single PO, and to break down those costs by CHA Building Code, will result in delays in payment after its submittal. The CHA reserves the right to make progress payments in accordance with Paragraph 27 of the CHA's "Special Conditions of the Contract for Construction" through an alternative system of payment during the term of the Contract. **IMPORTANT:** The Contractor's PO will be based on the information provided by the Contractor in the table below. When submitting the Contractor's invoice(s) after award, the actual cost(s) should be reflected on the face of each invoice, as well as being supported in the Schedule of Values.

ALL INVOICES MUST BE SUBMITTED DIRECTLY TO: CHICAGO HOUSING AUTHORITY, Attn: Accounts Payable, 60 East Van Buren St., 11th Floor, Chicago, IL 60605. Do **NOT** submit invoices to the Capital Construction Department. Failure to follow this direction will result in delays in processing invoice payments.

ENVIRONMENTAL REMEDIATION COSTS: You are required to break down Costs per Building between general construction costs and environmental remediation costs. If no environmental remediation work is required for this project, please fill in a zero (0) on the Environmental line for each building.

- (b) The contractor shall begin work upon receipt of a written Notice to Proceed from the Contracting Officer or designee. The Contractor shall not begin work prior to receiving such notice.

6. Construction Progress Schedule

- (a) The Contractor shall, within five days after the work commences on the contract or another period of time determined by the Contracting Officer, prepare and submit to the Contracting Officer for approval three copies of a practicable schedule showing the order in which the Contractor proposes to perform the work, and the dates on which the Contractor contemplates starting and completing the several salient features of the work (including acquiring labor, materials, and equipment). - (c) Failure of the Contractor to comply with the requirements of the Contracting Officer under this clause shall be grounds for a determination by the Contracting Officer that the Contractor is not prosecuting the work with sufficient diligence to ensure completion within the time specified in the Contract. Upon making this determination, the Contracting Officer may terminate the Contractor's right to proceed with the work, or any separable part of it, in accordance with the Default clause of this contract.

7. Site Investigation and Conditions Affecting the Work

- (b) The PHA assumes no responsibility for any conclusions or interpretations made by the Contractor based on the information made available by the PHA. Nor does the PHA assume responsibility for any understanding reached or representation made concerning conditions which can affect the work by any of its officers or agents before the execution of this contract, unless that understanding or representation is expressly stated in this contract.

- (b) The Contracting Officer shall investigate the site conditions promptly after receiving the notice. Work shall not proceed at the affected site, except at the Contractor's risk, until the Contracting Officer has provided written instructions to the Contractor. If the conditions do materially so differ and cause an increase or decrease in the Contractor's cost of, or the time required for, performing any part of the work under this contract, whether or not changed as a result of the conditions, the Contractor shall file a claim in writing to the PHA within ten days after receipt of such instructions and, in any event, before proceeding with the work. An equitable adjustment in the contract price, the delivery schedule, or both shall be made under this clause and the contract modified in writing accordingly.
- (c) No request by the Contractor for an equitable adjustment to the contract under this clause shall be allowed, unless the Contractor has given the written notice required; provided, that the time prescribed in (a) above for giving written notice may be extended by the Contracting Officer.
- (d) No request by the Contractor for an equitable adjustment to the contract for differing site conditions shall be allowed if made after final payment under this contract.

9. Specifications and Drawings for Construction

- (a) The Contractor shall keep on the work site a copy of the drawings and specifications and shall at all times give the Contracting Officer access thereto. Anything mentioned in the specifications and not shown on the drawings, or shown on the drawings and not mentioned in the specifications, shall be of like effect as if shown or mentioned in both. In case of difference between drawings and specifications, the specifications shall govern. In case of discrepancy in the figures, in the drawings, or in the specifications, the matter shall be required in the planning and production of the work. Such

The Contracting Officer shall furnish from time to time such detailed drawings and other information as considered necessary, unless otherwise provided.

- (b) Wherever in the specifications or upon the drawings the words 'directed', 'required', 'ordered', 'designated', 'prescribed', or words of like import are used, it shall be understood that the 'direction', 'requirement', 'order', 'designation', or 'prescription', of the Contracting Officer is intended and similarly the words 'approved', 'acceptable', 'satisfactory', or words of like import shall mean 'approved by', or 'acceptable to', or 'satisfactory to' the Contracting Officer, unless otherwise expressly stated.

- (h) If the removal of the existing work exposes discolored or unfinished surfaces, or work out of alignment, such surfaces shall be refinished, or the material replaced as necessary to make the continuous work uniform and harmonious. This, however, shall not be construed to require the refinishing or reconstruction of dissimilar finishes previously exposed, or finished surfaces in good condition, but in different planes or on different levels when brought together by the removal of intervening work, unless such refinishing or reconstruction is specified in the plans or specifications.
- (i) The Contractor shall give all required notices to any adjoining or adjacent property owner or other party before the commencement of any work.

 - (3) "Testing" means that element of inspection that determines the properties or elements, including functional operation of materials, equipment, or their components, by the application of established scientific principles and procedures.
- (b) The Contractor shall maintain an adequate inspection system and perform such inspections as will ensure that the work performed under the contract conforms to contract requirements. All work is subject to PHA inspection and test at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of the contract.
- (c) PHA inspections and tests are for the sole benefit of the PHA and do not: (1) relieve the Contractor of responsibility for providing adequate quality control measures; (2) relieve the Contractor of responsibility for loss or damage of the material before acceptance; (3) constitute or imply acceptance; or, (4) affect the continuing rights of the PHA after acceptance of the completed work under paragraph (j) below.
- (d) The presence or absence of the PHA inspector does not relieve the Contractor from any contract requirement, nor is the inspector authorized to change any term or condition of the specifications without the Contracting Officer's written authorization. All instructions and approvals with respect to the work shall be given to the Contractor by the Contracting Officer.
- (e) The Contractor shall promptly furnish, without additional charge, all facilities, labor, and material reasonably needed for performing such safe and convenient inspections and tests as may be required by the Contracting Officer. The PHA may charge to the Contractor any additional cost of inspection or test when work is not ready at the time specified by the Contractor for inspection or test, or when prior rejection makes reinspection or retest necessary. The PHA shall perform all inspections and tests in a manner that will not unnecessarily delay the work. Special, full size, and performance tests shall be performed as described in the contract.
- (g) The Contractor shall, without charge, replace or correct work found by the PHA not to conform to

contract requirements, unless the PHA decides that it is in its interest to accept the work with an appropriate adjustment in contract price. The Contractor shall promptly segregate and remove rejected material from the premises.

- (i) If any work requiring inspection is covered up without approval of the PHA, it must, if requested by the Contracting Officer, be uncovered at the expense of the Contractor. If at any time before final acceptance of the entire work, the PHA considers it necessary or advisable, to examine work already completed by removing or tearing it out, the Contractor, shall on request, promptly furnish all necessary facilities, labor, and material. If such work is found to be defective or nonconforming in any material respect due to the fault of the Contractor or its subcontractors, the Contractor shall defray all the expenses of the examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements of the contract, the Contracting Officer shall make an equitable adjustment to cover the cost of the examination and reconstruction, including, if completion of the work was thereby delayed, an extension of time.
- (j) The Contractor shall notify the Contracting Officer, in writing, as to the date when in its opinion all or a designated portion of the work will be substantially completed and ready for inspection. If the Architect determines that the state of preparedness is as represented, the PHA will promptly arrange for the inspection. Acceptance shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the PHA's right under any warranty or guarantee.

21. Use and Possession Prior to Completion

- (a) The PHA shall have the right to take possession of or use any completed or partially completed part of the work. Before taking possession of or using any work, the Contracting Officer shall furnish the Contractor a list of items of work remaining to be performed or corrected on those portions of the work that the PHA intends to take possession of or use. However, failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The PHA's possession or use shall not be deemed an acceptance of any work under the contract.
- (b) While the PHA has such possession or use, the Contractor shall be relieved of the responsibility for (1) the loss of or damage to the work resulting from the PHA's possession or use, notwithstanding the terms of the clause entitled Permits and Codes herein; (2) all maintenance costs on the areas occupied; and, (3) furnishing heat, light, power, and water used in the areas occupied without proper remuneration therefore. If prior possession or use by the PHA delays the progress of the

This warranty shall continue for a period of 1 Year (one year unless otherwise indicated) from the date of final acceptance of the work. If the PHA takes possession of any part of the work before final acceptance, this warranty shall continue for a period of (one year unless otherwise indicated) from the date that the PHA takes possession.
 - (b) The Contractor shall remedy, at the Contractor's expense, any failure to conform, or any defect. In addition, the Contractor shall remedy, at the Contractor's expense, any damage to PHA-owned or controlled real or personal property when the damage is the result of—

 - (d) The Contracting Officer shall notify the Contractor, in writing, within a reasonable time after the discovery of any failure, defect or damage.
 - (e) If the Contractor fails to remedy any failure, defect, or damage within a reasonable time after receipt of notice, the PHA shall have the right to replace, repair or otherwise remedy the failure, defect, or damage at the Contractor's expense.
 - (f) With respect to all warranties, express or implied, from subcontractors, manufacturers, or suppliers for work performed and materials furnished under this contract, the Contractor shall:
 - (1) Obtain all warranties that would be given in normal commercial practice;
 - (2) Require all warranties to be executed in writing, for the benefit of the PHA; and,
 - (3) Enforce all warranties for the benefit of the PHA.
 - (g) In the event the Contractor's warranty under paragraph (a) of this clause has expired, the PHA may bring suit at its own expense to enforce a subcontractor's, manufacturer's or supplier's warranty.
- Contractor shall not be liable for the repair of any defect of material or design furnished by the PHA nor for the

repair of any damage that results from any defect in PHA furnished material or design.

- (i) Notwithstanding any provisions herein to the contrary, the establishment of the time periods in paragraphs (a) and (c) above relate only to the specific obligation of the Contractor to correct the work, and have no relationship to the time within which its obligation to comply with the contract may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to its obligation other than specifically to correct the work.
- (j) This warranty shall not limit the PHA's rights under the Inspection and Acceptance of Construction clause of this contract with respect to latent defects, gross mistakes or fraud.

24. Prohibition Against Liens

The Contractor is prohibited from placing a lien on the PHA's property. This prohibition shall apply to all subcontractors at any tier and all materials suppliers.

The Contractor shall prorate its overhead and profit over the construction period of the contract.

- (d) The Contractor shall submit, on forms provided by the PHA, periodic estimates showing the value of the work performed during each period based upon the approved breakdown of the contract price. In the event the work of the Contractor has been damaged by other contractors or persons other than employees of the PHA in the course of their employment, the Contractor shall restore such damaged work without cost to the PHA and to seek redress for its damage only from those who directly caused it.

However, except for a adjustment based on defective specifications, no proposal for any change under paragraph (b) above shall be allowed for any costs incurred more than 20 days (5 days for oral orders) before the Contractor gives written notice as required. If the facts justify it, the Contracting Officer may extend the period for submission. The proposal may be included in the notice required under paragraph (b) above. No proposal by the Contractor for an equitable adjustment shall be allowed if asserted after final payment under this contract.
- (f) The Contractor's written proposal for equitable adjustment shall be submitted in the form of a lump sum proposal supported with an itemized breakdown of all increases and decreases in the contract in at least the following details:
 - costs (identified with specific work to be performed);
 - Construction equipment exclusively necessary for the change;
 - Costs of preparation and/ or revision to shop drawings resulting from the change;
 - Worker's

Compensation and Public Liability Insurance;
Employment taxes under FICA and FUTA; and, Bond
Costs when size of change warrants revision.

- (2) Indirect Costs. Indirect costs may include overhead, general and administrative expenses, and fringe benefits not normally treated as direct costs.
- (3) Profit. The amount of profit shall be negotiated and may vary according to the nature, extent, and complexity of the work required by the change.

The allowability of the direct and indirect costs shall be determined in accordance with the Contract Cost Principles and Procedures for Commercial Firms in Part 31 of the Federal Acquisition Regulation (48 CFR 1-31), as implemented by HUD Handbook 2210.18, in effect on the date of this contract. The Contractor shall not be allowed a profit on the profit received by any subcontractor. - (h) The Contracting Officer shall act on proposals within 30 days after their receipt, or notify the Contractor of the date when such action will be taken.
- (i) Failure to reach an agreement on any proposal shall be a dispute under the clause entitled Disputes herein. Nothing in this clause, however, shall excuse the Contractor from proceeding with the contract as changed.
- (j) Except in an emergency endangering life or property, no change shall be made by the Contractor without a prior order from the Contracting Officer.

30. Suspension of Work

- (a) The Contracting Officer may order the Contractor in writing to suspend, delay, or interrupt all or any part of the work of this contract for the period of time that the Contracting Officer determines appropriate for the convenience of the PHA.
- (b) If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Contracting Officer in the administration of this contract, or (2) by the Contracting Officer's failure to act within the time specified (or within a reasonable time if not specified) in this contract an adjustment shall be made for any increase in the cost of performance of the contract (excluding profit) necessarily caused by such unreasonable suspension, delay, or interruption and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor or for which any equitable adjustment is provided for or excluded under any other provision of this contract.
- (c) A claim under this clause shall not be allowed (1) for any proceed with the work (or separable part of the work) that has been delayed. In this event, the PHA may take over the work and complete it, by contract or otherwise, and

31. Disputes

- (a) "Claim," as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. A claim arising under the contract, unlike a claim relating to the contract, is a claim that can be resolved under a contract clause that provides for the relief sought by the claimant. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim by complying with the requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.
- (b) Except for disputes arising under the clauses entitled Labor Standards - Davis Bacon and Related Acts, herein, all disputes arising under or relating to this contract, including any claims for damages for the alleged breach thereof which are not disposed of by agreement, shall be resolved under this clause.
- (c) All claims by the Contractor shall be made in writing and submitted to the Contracting Officer for a written decision. A claim by the PHA against the Contractor shall be subject to a written decision by the Contracting Officer.
- (d) The Contracting Officer shall, within 60 (unless otherwise indicated) days after receipt of the request, decide the claim or notify the Contractor of the date by which the decision will be made.
- (e) The Contracting Officer's decision shall be final unless the Contractor (1) appeals in writing to a higher level in the PHA in accordance with the PHA's policy and procedures, (2) refers the appeal to an independent mediator or arbitrator, or (3) files suit in a court of competent jurisdiction. Such appeal must be made within (30 unless otherwise indicated) days after receipt of the Contracting Officer's decision.
- (f) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under or relating to the contract, and comply with any decision of the Contracting Officer.

32. Default

- (a) If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with the diligence that will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within this time, the Contracting Officer may, by written notice to the Contractor, terminate the right to

may take possession of and use any materials, equipment, and plant on the work site necessary for completing the work. The Contractor and its sureties shall

be liable for any damage to the PHA resulting from the Contractor's refusal or failure to complete the work within the specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the PHA in completing the work.

- (b) The Contractor's right to proceed shall not be terminated or the Contractor charged with damages under this clause if—

(1) The delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. (2) The Contractor, within days (10 days unless otherwise indicated) from the beginning of such delay (unless extended by the Contracting Officer) notifies the Contracting Officer in writing of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of the delay. If, in the judgment of the Contracting Officer, the findings of fact warrant such action, time for completing the work shall be extended by written modification to the contract. The findings of the Contracting Officer shall be reduced to a written decision which shall be subject to the provisions of the Disputes clause of this contract.

- (c) If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been for convenience of the PHA.

33. Liquidated Damages

- (a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, as specified in the clause entitled Default of this contract, the Contractor shall pay to the PHA as liquidated damages, the sum of \$ 1,500 [Contracting Officer insert amount] for each day of delay. If different completion dates are specified in the contract for separate parts or stages of the work, the amount of liquidated damages shall be assessed on those parts or stages which are delayed. To the extent that the Contractor's delay or nonperformance is excused under another clause in this contract, liquidated damages shall not be due the PHA. The Contractor remains liable for damages caused other than by delay.

- (c) If the PHA does not terminate the Contractor's right to proceed, the resulting damage will consist of liquidated damages until the work is completed or accepted.

Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which the performance of the work under the contract is terminated, and the date upon which such termination becomes effective.

- (b) If the performance of the work is terminated, either in whole or in part, the PHA shall be liable to the Contractor for reasonable and proper costs resulting from such termination upon the receipt by the PHA of a properly presented claim setting out in detail: (1) the total cost of the work performed to date of termination less the total amount of contract payments made to the Contractor; (2) the cost (including reasonable profit) of settling and paying claims under subcontracts and material orders for work performed and materials and supplies delivered to the site, payment for which has not been made by the PHA to the Contractor or by the Contractor to the subcontractor or supplier; (3) the cost of preserving and protecting the work already performed until the PHA or assignee takes possession thereof or assumes responsibility therefore; (4) the actual or estimated cost of legal and accounting services reasonably necessary to prepare and present the termination claim to the PHA; and (5) an amount constituting a reasonable profit on the value of the work performed by the Contractor.

- (c) The Contracting Officer will act on the Contractor's claim within days (60 days unless otherwise indicated) of receipt of the Contractor's claim.

- (d) Any disputes with regard to this clause are expressly made subject to the provisions of the Disputes clause of this contract.

The Builder's Risk Insurance shall be for the benefit of the Contractor and the PHA as their interests may appear and each shall be named in the policy or policies as an insured. The Contractor in installing equipment supplied by the PHA shall carry insurance on such equipment from the time the Contractor takes possession thereof until the Contract work is accepted by the PHA. accessible place where it can be easily seen by the workers.

- (2) (i) Any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. HUD shall approve an additional classification and wage rate and fringe benefits therefor only when all the following criteria have been met: (A) The work to be performed by the classification requested is not performed by a classification in the wage determination; and (B) The classification is utilized in the area by the construction industry; and (C) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

- (4) If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the

amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or

program; provided, that the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

- (b) Withholding of funds. HUD or its designee shall, upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the Contractor under this contract or any other Federal contract with the same prime Contractor, or any other Federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime Contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the contract. HUD or its designee may, after written notice to the Contractor, disburse such amounts withheld for and on account of the Contractor or subcontractor to the respective employees to whom they are due.

- (c) Payrolls and basic records.

- (1) Payrolls and basic records relating thereto shall be maintained by the Contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working in the construction or development of the project. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found, under 29 CFR 5.5(a)(1)(iv), that the wages of any laborer or mechanic include the amount of costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

- (2) (i) The Contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the Contracting Officer for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under subparagraph (c)(1) of this clause. This information may be submitted in any form desired. Optional Form WH-347 (Federal Stock Number 029-005-00014-1) is available for this purpose and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Contractor is responsible for the submission of copies of payrolls by all subcontractors. (Approved by the Office of Management and Budget under OMB Control Number 1214-0149.)
- (ii) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the Contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
- (A) That the payroll for the payroll period contains the information required to be maintained under paragraph (c) (1) of this clause and that such information is correct and complete;
- (B) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR Part 3; and
- (C) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.
- (iii) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirements for submission of the "Statement of Compliance" required by subparagraph (c)(2)(ii) of this clause.
- (iv) The falsification of any of the above certifications may subject the Contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 3729 of Title 31 of the United States Code.
- (3) The Contractor or subcontractor shall make the records required under subparagraph (c)(1) available for inspection, copying, or transcription by authorized representatives of HUD or its designee, the Contracting Officer, or the Department of Labor and shall permit such representatives to interview employees during working hours on the job. If the Contractor or subcontractor fails to submit the required records or to make them available, HUD or its designee may, after written notice to the Contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to

make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

- (d) (1) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship and Training, Employer and Labor Services (OATELS), or with a State Apprenticeship Agency recognized by OATELS, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by OATELS or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the Contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in this paragraph, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the Contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event OATELS, or a State Apprenticeship Agency recognized by OATELS, withdraws approval of an apprenticeship program, the Contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.
- (2) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under

- the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed in the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate in the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate in the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate in the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the Contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.
- (3) Equal employment opportunity. The utilization of apprentices, trainees, and journeymen under this clause shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR Part 30.
- (e) Compliance with Copeland Act requirements. The Contractor shall comply with the requirements of 29 CFR Part 3, which are hereby incorporated by reference in this contract.
- (f) Contract termination; debarment. A breach of this contract clause may be grounds for termination of the contract and for debarment as a Contractor and a subcontractor as provided in 29 CFR 5.12.
- (g) Compliance with Davis-Bacon and related Act requirements. All rulings and interpretations of the Davis-Bacon and related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract.
- (h) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this clause shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the Contractor (or any of its subcontractors) and the PHA, HUD, the U.S. Department of Labor, or the employees or their representatives.
- (i) Certification of eligibility.
- (1) By entering into this contract, the Contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the Contractor's firm is a person or firm ineligible to be awarded contracts by the United States Government by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- (2) No part of this contract shall be subcontracted to any person or firm ineligible for award of a United States Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- (3) The penalty for making false statements is prescribed in the U. S. Criminal Code, 18 U.S.C. 1001.
- (j) Contract Work Hours and Safety Standards Act. As used in this paragraph, the terms "laborers" and "mechanics" include watchmen and guards.
- (1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics, including watchmen and guards, shall require or permit any such laborer or mechanic in any workweek in which the individual is employed on such work to work in excess of 40 hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of 40 hours in such workweek.
- (2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the provisions set forth in subparagraph (j)(1) of this clause, the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic (including watchmen and guards) employed in violation of the provisions set forth in subparagraph (j)(1) of this clause, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by provisions set forth in subparagraph (j)(1) of this clause.
- (3) Withholding for unpaid wages and liquidated damages. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Contractor or subcontractor under any such contract or any Federal contract with the same prime Contractor, or any other Federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Contractor, such sums as may be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the provisions set forth in subparagraph (j)(2) of this clause.
- (k) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts all the provisions contained in this clause, and such other clauses as HUD or its designee may by appropriate instructions require, and also a clause requiring the subcontractors to include these provisions in any lower tier subcontracts. The prime Contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all these provisions.

47. Non-Federal Prevailing Wage Rates

- (a) Any prevailing wage rate (including basic hourly rate and any fringe benefits), determined under State or tribal law to be prevailing, with respect to any employee in any trade or position employed under the contract, is inapplicable to the contract and shall not be enforced against the Contractor or any subcontractor, with respect to employees engaged under the contract whenever such non-Federal prevailing wage rate exceeds: (1) The applicable wage rate determined by the Secretary of Labor pursuant to the Davis-Bacon Act (40 U.S.C. 3141 et seq.) to be prevailing in the locality with respect to such trade;
- (b) An applicable apprentice wage rate based thereon specified in an apprenticeship program registered with the U.S. Department of Labor (DOL) or a DOL-recognized State Apprenticeship Agency; or
- (c) An applicable trainee wage rate based thereon specified in a DOL-certified trainee program.

48. Procurement of Recovered Materials.

- (a) In accordance with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, the Contractor shall procure items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition. The Contractor shall procure items designated in the EPA guidelines that contain the highest percentage of recovered materials practicable unless the Contractor determines that such items: (1) are not reasonably available in a reasonable period of time; (2) fail to meet reasonable performance standards, which shall be determined on the basis of the guidelines of the National Institute of Standards and Technology, if applicable to the item; or (3) are only available at an unreasonable price.
- (b) Paragraph (a) of this clause shall apply to items purchased under this contract where: (1) the Contractor purchases in excess of \$10,000 of the item under this contract; or (2) during the preceding Federal fiscal year, the Contractor: (i) purchased any amount of the items for use under a contract that was funded with Federal appropriations and was with a Federal agency or a State agency or agency of a political subdivision of a State; and (ii) purchased a total of in excess of \$10,000 of the item both under and outside that contract.

Instructions for Completing the Previous Participation Certificate, form HUD-2530

Carefully read these instructions and the applicable regulations. A copy of those regulations published at 24 C.F.R. 200.210 to 200.245 can be obtained from the Multifamily Housing Representative at any HUD Office. Type or print neatly in ink when filling out this form. Mark answers in all blocks of the form. If the form is not filled completely, it will delay approval of your application.

Attach extra sheets as you need them. Be sure to indicate "Continued on Attachments" wherever appropriate. Sign each additional page that you attach if it refers to you or your record. If you have many projects to list (20 or more) and expect to be applying frequently for participation in HUD projects, you should consider filing a Master List. See Master List instructions below under "Instructions for Completing Schedule A."

Carefully read the certification before you sign it. Any questions regarding the form or how to complete it can be answered by your HUD Office Multifamily Housing Representative.

Purpose: This form provides HUD with a certified report of all previous participation in HUD multifamily housing projects by those parties making application. The information requested in this form is used by HUD to determine if you meet the standards established to ensure that all principal participants in HUD projects will honor their legal, financial and contractual obligations and are acceptable risks from the underwriting standpoint of an insurer, lender or governmental agency. HUD requires that you certify your record of previous participation in HUD/USDA-FmHA, State and Local Housing Finance Agency projects by completing and signing this form, before your project application or participation can be approved.

HUD approval of your certification is a necessary precondition for your participation in the project and in the capacity that you propose. If you do not file this certification, do not furnish the information requested accurately, or do not meet established standards, HUD will not approve your certification.

Note that approval of your certification does not obligate HUD to approve your project application, and it does not satisfy all other HUD program requirements relative to your qualifications.

Who Must Sign and File Form HUD-2530:

Form HUD-2530 must be completed and signed by all parties applying to become principal participants in HUD multifamily housing projects, including those who have no previous participation. The form must be signed and filed by all principals and their affiliates who propose participating in the HUD project. Use a separate form for each role in the project unless there is an identity of interest.

Principals include all individuals, joint ventures, partnerships, corporations, trusts, nonprofit organizations, any other public or private entity, that will participate in the proposed project as a sponsor, owner, prime contractor, turnkey developer, managing agent, nursing home administrator or operator, packager, or consultant. Architects and attorneys who have any interest in the project other than an arms length fee arrangement for professional services are also considered principals by HUD.

In the case of partnerships, all general partners regardless of their percentage interest and limited partners having a 25 percent or more interest in the partnership are considered principals. In the case of public or private corporations or governmental entities, principals include the president, vice president, secretary, treasurer and all other executive officers who are directly responsible to the board of directors, or any equivalent governing body, as well as all directors and each stockholder having a 10 percent or more interest in the corporation.

Affiliates are defined as any person or business concern that directly or indirectly controls the policy of a principal or has the power to do so. A holding or parent corporation would be an example of an affiliate if one of its subsidiaries is a principal.

Exception for Corporations – All principals and affiliates must personally sign the certificate except in the following situation. When a corporation is a principal, all of its officers, directors, trustees and stockholders with 10 percent or more of the common (voting) stock need not sign personally if they all have the same record to report. The officer who is authorized to sign for the corporation or agency will list the names and title of those who elect not to sign. However, any person who has a record of participation in HUD projects that is separate from that of his or her organization must report that activity on this form and sign his or her name. The objective is full disclosure.

Exemptions – The names of the following parties do not need to be listed on form HUD-2530: Public Housing Agencies, tenants, owners of less than five condominium or cooperative units and all others whose interests were acquired by inheritance or court order.

Where and When Form HUD-2530 Must Be Filed:

The original of this form must be submitted to the HUD Office where your project application will be processed at the same time you file your initial project application. This form must be filed with applications for projects, or when otherwise required in the situations listed below:

- Projects to be financed with mortgages insured under the National Housing Act (FHA).
 - Projects to be financed according to Section 202 of the Housing Act of 1959 (Elderly and Handicapped).
 - Projects in which 20 percent or more of the units are to receive a subsidy as described in 24 C.F.R. 200.213.
 - Purchase of a project subject to a mortgage insured or held by the Secretary of HUD.
 - Purchase of a Secretary-owned project.
 - Proposed substitution or addition of a principal, or principal participation in a different capacity from that previously approved for the same project.
 - Proposed acquisition by an existing limited partner of an additional interest in a project resulting in a total interest of 25 percent or more, or proposed acquisition by a corporate stockholder of an additional interest in a project resulting in a total interest of 10 percent or more.
 - Projects with U.S.D.A., Farmers Home Administration, or with state or local government housing finance agencies that include rental assistance under Section 8 of the Housing Act of 1937. For projects of this type, form HUD-2530 should be filed with the appropriate applications directly to those agencies.
- Review of Adverse Determination:** If approval of your participation in a HUD project is denied, withheld, or conditionally granted on the basis of your record of previous participation, you will be notified by the HUD Office. You may request reconsideration by the HUD Review Committee. Alternatively, you may request a hearing before a Hearing Officer. Either request must be made in writing within 30 days from your receipt of the notice of determination.

If you do request reconsideration by the Review Committee and the reconsideration results in an adverse determination, you may then request a hearing before a Hearing Officer. The Hearing Officer will issue a report to the Review Committee. You will be notified of the final ruling by certified mail.

Instructions for Completing Schedule A:

Be sure that Schedule A is filled in completely, accurately and the certification is properly dated and signed, because it will serve as a legal record of your previous experience. All Multifamily Housing projects involving HUD/FmHA, and State and local Housing Finance Agencies in which you have previously participated **must** be listed. Applicants are reminded that previous participation pertains to the individual principal within an entity as well as the entity itself. A newly formed company may not have previous participation, but the principals within the company may have had extensive participation and disclosure of that activity is required. To avoid duplication of disclosure, list the project and then the entities or individuals involved in that project. You may use the name or a number code to denote the entity or individual that participated. The number code can then be used in column 3 to denote role.

Column 2 List the project or contract identification of each previous project. **All previous projects must be included or your certification cannot be processed.** Include the name of all projects, the cities in which they are located and the government agency (HUD, USDA-FmHA or State or local housing finance agency) that was involved. At the end of your list of projects, draw a straight line across the page to separate your record of projects from that of others signing this form who have a different record to report.

The Department of Housing and Urban Development (HUD) is authorized to collect this information by law (42 U.S.C. 3535(d) and 24 C.F.R. 200.217) and by regulation at 24 CFR 200.210. This information is needed so that principals applying to participate in multifamily programs can become HUD-approved participants. The information you provide will enable HUD to evaluate your record with respect to established standards of performance, responsibility and eligibility. Without prior approval, a principal may not participate in a proposed or existing multifamily project. HUD uses this information to evaluate whether or not principals pose an unsatisfactory underwriting risk. The information is used to evaluate the potential principals and approve only individuals and organizations who will honor their legal, financial and contractual obligations.

Privacy Act Statement: The Housing and Community Development Act of 1987, 42 U.S.C. 3534 requires persons applying for a Federally-insured or guaranteed loan to furnish his/her Social Security Number (SSN). HUD must have your SSN for identification of your records. HUD may use your SSN for automated processing of your records and to make requests for information about you and your previous records with other public agencies and private sector sources. HUD may disclose certain information to Federal, State and local agencies when relevant to civil, criminal, or regulatory investigations and prosecutions. It will not be otherwise disclosed or released outside of HUD, except as required and permitted by law. You must provide all of the information requested in this application, including your SSN.

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

A response is mandatory. Failure to provide any of the information will result in your disapproval for participation in this HUD program.

Previous editions are obsolete

Column 3 List the role(s) of your participation, dates participated, and if fee or identity of interest with owners.

Column 4 Indicate the current status of the loan. Except for current loans, the date associated with the status is required. Loans under a workout arrangement are considered as signed. An explanation of the circumstances surrounding the status is required for all non-current loans.

Column 5 Explain any project defaults during your participation.

Column 6 Enter the latest Management and/or Physical Inspection Review rating. If either of the ratings are below average, the report issued by HUD is required to be submitted along with the applicant's explanation of the circumstances surrounding the rating.

No Previous Record: Even if you have never participated in a HUD project before, you must complete form HUD-2530. If you have no record of previous projects to list, fill in your name in column 1 of Schedule A, and write across the form by your name – "No previous participation, first experience."

Master List System: If you expect to file this form frequently and you have a long list of previous projects to report on Schedule A, you should consider filing a Master List. By doing so, you will avoid having to list all your previous projects each time you file a new application.

To make a Master List, use form HUD-2530. On page 1, in block 1, enter (in capital letters) the words "Master List." In blocks 2 through 6 enter in "N.A." meaning Not Applicable. Complete blocks 7 through 10.

In the box below the statement of certification, fill in the names of all parties who wish to file a Master List together (type or print neatly). Beside each name, every party must sign the form. In the box titled "Proposed Role," fill in "N.A." Also, fill in the date you sign the form

and provide a telephone number where you can be reached during the day. No determinations will be made on these certifications.

File one copy of the Master List with each HUD Office where you do business and mail one copy to the following address:

**HUD-2530 Master List
Participation and Compliance
Division – Housing
U.S. Department of Housing and
Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410**

Once you have filed a Master List, you do not need to complete Schedule A when you submit form HUD-2530. Instead, write the name of the participant in column 1 of Schedule A and beside that write "See Master List on file." Also give the date that appears on the Master List that you submitted. Below that, report all changes and additions that have occurred since that date. Be sure to include any mortgage defaults, assignments or foreclosures not listed previously.

If you have withdrawn from a project since the date the Master List was filed, be sure to name the project. Give the project identification number, the month and year your participation began and/or ended.

Certification:

After you have completed all other parts of form HUD-2530, including Schedule A, read the Certification carefully. In the box below the statement of certification, fill in the name of all principals and affiliates (type or print neatly). Beside the name of each principal and affiliate, each party must sign the form, with the exception in some cases of individuals associated with a corporation (see "Exception for Corporations" in the section of the instructions titled "Who Must Sign and File form

HUD-2530"). Beside each signature, fill in the role of each party (the same as shown in block 8). In addition, each person who signs the form should fill in the date that he or she signs, as well as providing a telephone number where he or she can be reached during business hours. By providing a telephone number where you can be reached, you will help to prevent any possible delay caused by mailing and processing time in the event HUD has any questions.

If you cannot certify and sign the certification as it is printed because some statements do not correctly describe your record, use a pen and strike through those parts that differ with your record, then sign and certify to that remaining part which does describe you or your record.

Attach a signed letter, note or an explanation of the items you have struck out on the certification and report the facts of your correct record. Item A(2)(e) relates to felony convictions within the past 10 years. If you have been convicted of a felony within 10 years, strike out all of A(2)(e) on the certificate and attach your statement giving your explanation. A felony conviction will not necessarily cause your participation to be disapproved unless there is a criminal record or other evidence that your previous conduct or method of doing business has been such that your participation in the project would make it an unacceptable risk from the underwriting standpoint of an insurer, lender or governmental agency.

- (4) The Contractor acknowledges and agrees that the requirements with respect to the Construction Cash-Flow in this Paragraph are in addition to the breakdown of the total contract price described in Paragraph 27.

(f) Failure of the Contractor to comply with the requirements of the Contracting Officer under this clause shall be grounds for a determination by the Contracting Officer that the Contractor is not prosecuting the work with sufficient diligence to ensure completion within the time specified in the Contract. Upon making this determination, the Contracting Officer may terminate the Contractor's right to proceed with the work, or any separable part of it, in accordance with the Default clause of this Contract.

9. Specifications and Drawings for Construction

10. As-Built Drawings

11. Material and Workmanship

- (d) Any decision by the CHA as to equality of materials shall be final and not subject to arbitration or other manner of dispute resolution.
- (e) Unless this Contract specifies otherwise, the Contractor represents that the material, including any residual inventory and former government surplus property identified under the Other Than New Material, Residual Inventory, and Former Government Surplus Property clause of this Contract, are new or are not of such age or so deteriorated as to impair their usefulness or safety.
- (f) If the Contractor believes that furnishing Other Than New Material will be in the CHA's interest, the Contractor shall so notify the Contracting Officer in writing and request written authority to use such Material. The Contractor's written notice shall include the reasons for the request along with a proposal for any consideration, cost reductions, or credits due the CHA if the Contracting Officer authorizes the use of Other Than New Material.

12. Permits and Codes

13. Health, Safety and Accident Prevention

- (f) The Contractor expressly agrees to be solely responsible for the enforcement of all jobsite and project safety laws, rules, policies and programs applicable to its provision of the Work with respect to its officers, directors, employees, agents, representatives, invitees and subcontractors (collectively "Contractor's Personnel") and shall defend, indemnify, and

hold harmless the CHA from all actions and claims brought by Contractor's Personnel as a result of the Contractor's accidental, willful, or negligent violation of said safety laws, rules, policies and programs and for actions or claims pursuant to injury or death sustained by Contractor's Personnel unless such injury or death was solely and exclusively caused by the CHA.

- (g) The CHA specifically disclaims any authority or responsibility for general Work Site safety and safety of persons other than CHA employees.
- (h) The Contractor shall maintain at its expense such barricades and temporary fencing and security guard services as are necessary to protect CHA residents, CHA employees and the general public, as well as the Work Site from unauthorized intrusion, vandalism and other criminal activity during the course of the Work. Such security measures shall not include hazardous activities, the use of guard dogs or electrified fences. Such security measures implemented by the Contractor shall remain in force until the Work is accepted by the CHA, and the CHA directs in writing that such security measures are no longer required and may be removed.
- (i) The Contractor shall provide and maintain Work environments, programs and procedures, which shall accomplish the following:
 - (1) Safeguard the Contractor's Personnel, CHA residents, the public, and the CHA's personnel, property, materials, supplies, and equipment exposed to the Contractor's operations and activities;
 - (2) Avoid interruptions of government operations and delays in Project completion dates; and

- (l) Whenever the Contracting Officer or its representative becomes aware of any noncompliance with these requirements or any condition that poses a serious or imminent danger to the health or safety of the public, CHA residents, or CHA personnel, the Contracting Officer shall notify the Contractor orally, with written confirmation, and request immediate initiation of corrective action. noncompliance and that corrective action is required. After receiving the notice, the Contractor shall immediately take corrective action. If the Contractor fails or refuses to promptly take corrective action, the Contracting Officer may issue an order stopping all or part of the Work until satisfactory corrective action has been taken. The Contractor shall not be entitled to any extension of the Work Schedule as a result of any Stop Work order issued under this clause. In the event of a Stop Work Order issued under this clause, the Contractor shall be responsible for all damages to or claims made against the CHA and/or any of the Contractor's or the CHA's subcontractors as a result of time delay, loss of materials, material price increases, and/or loss of productivity.

(m) If the Contract will involve (1) work of a long duration or hazardous nature, or (2) performance at a CHA facility that, on the advice of technical representatives, involves hazardous material or operations that might endanger the safety of the public, CHA residents, and/or CHA's personnel or property, before commencing the Work, the Contractor shall:

(1) Submit a written proposed plan for implementing the requirements of this Paragraph 13(m) that shall include an analysis of the significant hazards to life, limb, and property inherent in the performance of the work and a plan for controlling these hazards; and

(2) Meet with the Contracting Officer or his or her representative(s) to discuss and develop a mutual understanding relative to administration of the overall safety program.

(n) The Contractor shall flow down the provisions of this Section 13 titled "Health, Safety and Accident Prevention" to its subcontractors at every tier.

14. Temporary Heating

15. Availability and Use of Utility Services

16. Protection of Existing Vegetation, Structures, Equipment, Utilities, and Improvements

(l) The Contractor shall at all times keep the Work Site free from accumulation of waste material and rubbish. At the completion of the Work, the Contractor shall remove all accumulation of waste material and rubbish as well as all its tools, construction equipment, and surplus materials from the Work Site.

If the Contractor fails to keep the Work Site clean either during the course of the Work or fails at the completion of the Work to remove all waste materials, rubbish, tools, construction equipment and surplus materials from the Work Site, the CHA may do so upon written notification to the Contractor. The cost of such cleanup or removal operations to the CHA shall be charged to the Contractor.

17. Temporary Buildings and Transportation of Materials

The Project Office shall be located so as to cause no interference with any Work to be performed on the Work Site. The Contractor shall consult the Architect with regard to the location of the Project Office.
 - (3) Upon completion of the Project, or as directed by the CHA, the Contractor shall remove the Project Office, and all temporary structures and facilities from the Work Site, including all property belonging to the Contractor, and leave the Work Site in the condition required by the CHA or Architect. In the event that the Contractor is the owner of a Facility on the EPA List, or the Contractor has breached any of the provisions of this Section 18; the CHA, at its option, may terminate this Contract.

(d) Use of Class I Ozone-Depleting Substances:

(1) In accordance with Section 326 of Public Law 102-484, the CHA is prohibited from awarding any contract which includes a specification or standard that requires the use of a Class I Ozone-Depleting Substance (ODS) identified in Section 602(a) of the Clean Air Act, [42 U.S.C. 767(a)], or that can be met only through the use of such a substance unless such use has been approved, on an individual basis, by an acquisition official who determines that there is no suitable substitute available.

(2) To comply with this statute, the CHA has conducted a best efforts screening of the specifications and standards associated with this Contract to determine whether any ODS requirements are included. To the extent that ODS requirements were revealed by this review, they are identified below with the disposition determined in each case:

ODS IDENTIFIED _____

DISPOSITION _____

(3) If this Contract requires use of ODS, the Contractor shall perform as stated in the "disposition" column above. However, to the extent that the specifications or standards require the use of ODS or the possibility of such use, the Contractor shall give a preference to non-ODS alternatives.

(4) If the Contractor possesses any special knowledge about any other ODS required directly or indirectly at any level of Work performance, the Contractor shall notify the CHA and identify such substances at the earliest possible time. The Contractor shall provide any information it may have regarding the requirement of ODS as soon as possible after release of the Specifications for Bid and prior to the Contractor's submission of its bid to the extent practicable.

the Work, Certification by the Architect that the Work is complete, and written acceptance by the CHA.

21. Use and Possession Prior to Completion

22. Warranty of Title

23. Warranty of Construction

24. Prohibition against Liens

It is expressly agreed that the Contractor shall execute a release of liens, stop notices and claims as shown at Exhibit A ("Release and Waiver of Liens, Stop Notices, and Claims") prior to final payment. If the Contractor has contracted with subcontractors, the Contractor shall provide a Release and Waiver of Liens, Stop Notices and Claims in substantially the same format as Exhibit A from each subcontractor and materialman supplying goods and services, in addition to its own Release and Waiver of Liens, Stop Notices, and Claims.

25. Contract Period

The Contractor shall commence Work under this Contract on a date specified in the written Notice to Proceed, to be issued by the CHA. The Contract Period (e.g., "term") of this Contract is determined by the commencement date in the Notice to Proceed and the completion Work Schedules.

26. Order of Provisions

The Paragraph Heading of Paragraph 26 is amended to read as follows:

(8) Contractor's completed Certifications, Representations, and Other Statements of Bidders (form HUD-5369-A)

- (b) In the event the Contractor identifies any discrepancies, incorrect statements, omissions, errors, ambiguities, or contradictions among the above-referenced documents, it shall notify the CHA in writing, immediately upon such identification. Such notification shall include a complete description of the issue and the document(s) involved. The Contractor shall also identify a timeframe in which the issue must be resolved in order to avoid any delays to the Critical Path schedule. The CHA and the Contractor will bilaterally negotiate any necessary changes to these documents, directives, or statements to resolve the discrepancies, incorrect statements, omissions, errors, ambiguities, or contradictions and any additional time required to complete a Critical Path task. The resolution shall be made a part of the Contract by bilateral change order or amendment. In the event the CHA and the Contractor cannot come to agreement, the CHA shall issue a unilateral change order making its resolution part of the Contract and any claim or dispute shall be resolved pursuant to the Section 31 titled "Disputes." The CHA assumes responsibility for drafting the Contract, proper identification of the Project, completeness of the Scope of Work, and the statement of Work as required by Federal Law in its role as the drafting party.

The Contractor shall flow down the provisions of this Section 26 titled "Order of Precedence" to its subcontractors at every tier.

27. Payments

- (c) The "breakdown of the total contract price, described in Paragraph 27(c) may also be referred to herein as the "Schedule of Amounts."
- (d) The following sentence shall be included after the third sentence of Paragraph 27(d): Obtaining the concurrence of the Architect shall be the responsibility of the Contractor.
- (j) Paragraph 27(j) shall be amended to include the following: The Contracting Officer may require original, current partial or final lien waivers from the Contractor's subcontractors at any tier, and material suppliers; and may require those partial or final lien waivers to correspond to the progress payment request being submitted to the CHA for payment.
- (k) The first sentence of Paragraph 27(k) is amended to read as follows: Unless required by Federal, State or local law, the PHA shall not; (1) determine or adjust any claims for payment or disputes arising thereunder between the Contractor and its subcontractors or material suppliers; or, (2) withhold any moneys for the protection of the subcontractors or material suppliers.
- (l) Notwithstanding the provisions of Section 27 of the General Conditions, upon completion of the Project, or where there are prescribed Work phases, upon completion of each phase, or on thirty (30) day intervals to be determined at the pre-construction meeting, whichever is less, the Contractor and a CHA representative shall conduct a walk-through inspection to certify that the Work has been performed satisfactorily. The Contractor may submit a progress payment request only for the Work certified by the CHA as having been completed satisfactorily. The CHA will use its most reasonable efforts to tender payment, less proper retention per the General Conditions, on all CHA approved progress payment

SPECIAL CONDITIONS
EVENT NO. 2302 FOR ROOF REPLACEMENT AND FACADE REPAIRS AT

requests received pursuant to the payment terms and General Conditions, Sections 6 and 27, as soon as possible thereafter. The retained amount will be remitted in accordance with Section 27 of the General Conditions.

- (m) The CHA may verify the progress payment requests for accuracy, reasonableness, accountability and allowance. In the event the CHA determines that an item or part of a progress payment request is improper and will not be paid as requested, the CHA will annotate or ("blue line") that item or part so that the Contractor can provide further support or explanation, or can resubmit that payment request in proper form. The corrected progress payment item will be reconsidered with the next progress payment request. All items and portions of a progress payment request that are not blue-lined will be paid, provided that all other provisions of this Contract addressing payment are satisfied.
- (n) The Contracting Officer shall, upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the Contractor under this Contract or any other Federal contract (i.e., "set-off rights") with the same Contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the Contract. To secure such payments, the Contractor is required to provide an Illinois Miller Act payment bond to the CHA in an amount equal to one-half of the value of the Contract.

In the event the Contractor fails to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the Work Site the Contracting Officer may, after written notice to the Contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

Notwithstanding the above provision, the CHA shall not be obligated to make any payment to the Contractor unless the Contractor has fully complied with all of the Contract provisions including, but not limited to the following:

- (1) The Contractor has provided and paid for an acceptable Performance Bond and acceptable Miller Act Payment Bond in the total amount of one hundred percent (100%) of the Contract.
- (2) The Contractor performs the Work pursuant to the Work Schedule approved per the terms of the Contract.
- (3) The Contractor's minimum rates of pay have been and are in conformance with those promulgated pursuant to the Davis-Bacon Act (40 USC 276a et. seq.) as determined and readjusted periodically by the U.S. Department of Labor's General Wage Decisions.
- (4) The Contractor carries the insurance specified in Section 36 of these Special Conditions without interruption or breaks in coverage.
- (5) The Contractor has submitted to the CHA proper bond and insurance certificates in a timely fashion as required and specified in Section 36 of these Special Conditions.

SPECIAL CONDITIONS

- (6) The Contractor has submitted proper payroll and related reports in a timely fashion as required and specified in Section 46 of these Special Conditions.
- (7) The Contractor makes timely submission of acceptable initial Work Schedules, acceptable Work Schedule updates simultaneously with the progress payment requests, and an acceptable "as-built" Work Schedule simultaneous with the final payment request.
- (8) The Contractor has complied with the MBE/WBE/DBE Utilization Plan and the Section 3 Utilization Plan.
 - (i) With respect to the MBE/WBE/DBE Utilization Plan, the Contracting Officer may withhold from the Contractor for each one percent (or fraction thereof) of shortfall toward the MBE/WBE goal, one percent of the base bid for this Contract. Any deductions from the Contractor's payments resulting from the Contractor's MBE/WBE/DBE non-compliance shall not waive any of the CHA's rights to pursue any other remedies available in law or in equity.
- (o) The CHA reserves the right to issue payments pursuant to this Paragraph through an escrow established by the CHA.
- (p) The Contractor acknowledges and agrees that the requirements with respect to the Construction Cash-Flow in Paragraph 6 are in addition to the breakdown of the total contract price described in this Paragraph.

28. Contract Modifications

29. Changes

30. Suspension of Work

The Paragraph Heading of Paragraph 30 is amended to read as follows:

30. Suspension of Work, Delays, and Stop Work Orders

(d) Suspension of Work

- (1) Notwithstanding the requirements set forth in Paragraphs 20(a), (b) and (c), if the performance of all or any part of the work is, for any unreasonable period of time, suspended or interrupted by the Contracting Officer for the convenience of the CHA, the Contractor may request in writing, which request must be delivered to the CHA, within 30 days of resumption of work, an adjustment to the contract price for the increase in the cost of performance of the contract (excluding profit) necessarily caused by such unreasonable suspension or interruption.

(e) Delays

- (1) The Contractor agrees that it shall make no claims against the CHA for damages, charges, interest, additional costs, direct or indirect, consequential damages or fees incurred as a result of reasonable suspension of work, or as a result of any delays, disruptions, or disturbances, caused by or arising from actions of CHA employees, its agents, contractors and consultants. The Contractor's sole and exclusive remedy for

SPECIAL CONDITIONS
EVENT NO. 2302 FOR ROOF REPLACEMENT AND FACADE REPAIRS AT
JUDGE FISHER APARTMENTS

such occurrences is an extension of time equal to the duration of the suspension, delay, disruption, or disturbance, to allow the Contractor to perform.

- (2) Extension of the Contract time shall be allowed because of "excusable delays" due to unforeseeable causes beyond the control and without the fault or negligence of the Contractor, to include without limitation;

- (i) "Force Majeure"
- (ii) Acts of God
- (iii) Acts of the public enemy
- (iv) Act of the CHA without concurrent delay by the Contractor
- (v) Acts of another Contractor in the performance of a contract with the CHA
- (vi) Fires not caused by the Contractor
- (vii) Floods not caused by the Contractor
- (viii) Epidemics
- (ix) Quarantine restrictions
- (x) Strikes not caused by the Contractor
- (xi) Freight embargoes
- (xii) Unusually severe weather
- (xiii) Delays to the subcontractors due to the foregoing cases

However, any delay caused by the Contractor's failure to secure labor or to secure materials, supplies, tools, equipment, or any other items required by the Contractor for the performance of the work, resulting from anything other than a force majeure, shall not justify an extension of the Contract time. In any event, as a condition precedent to be entitled to an extension of time, it is the obligation of the Contractor to request an extension of time within 10 days of when the Contractor knew or should have known about the event giving rise to the delay.

With respect to "excusable delays", the CHA shall ascertain and find the facts and extent of the delay and may extend the Contract time for the reasons stated above only. Its decision shall be final and conclusive on the parties and shall not be subject to the Disputes provision in Section 31 of these Special Conditions.

(3) Time-Extensions

- (i) Notwithstanding any other provisions of this Contract, it is mutually understood that time extensions shall depend upon the extent, if any, by which the changes delay various elements of construction. The change order granting the time extension may provide that the Contract completion date shall be extended only for specific

SPECIAL CONDITIONS
EVENT NO. 2302 FOR ROOF REPLACEMENT AND FACADE REPAIRS AT
JUDGE FISHER APARTMENTS

activities delayed and that the durations for all other activities shall not be altered; and, may further provide for an equitable adjustment of liquidated damages per an updated Work Schedule.

- (ii) It is expressly agreed that time extensions shall only be granted for delays to activities on the Critical Path of the Work Schedule, and that time extension requests must be supported by a Special Delay Report and an update of the Work Schedule as described in Section 6.
 - (iii) Immediately upon becoming aware of any event or difficulties that might delay performance of the Work under this Contract, the Contractor shall notify the CHA in writing. The notification must identify the event or difficulties, the reason for the event or difficulties, and the estimated period of the delay anticipated. Such notice must be submitted to the CHA within ten (10) days after Contractor first became aware of potential or actual delay, event, or difficulty. Failure to give timely notice shall preclude later consideration of any request for an extension of the Term.
- (4) If the Contractor is at fault, in whole or part, for the delay of its performance of the Work or the delay is due to events caused by the Contractor's employees, suppliers, vendors, materialmen, or subcontractors, then the Contractor shall not be entitled to any additional time to complete the project.

(f) Stop Work Orders

- (1) The Contracting Officer may, at any time, by written order to the Contractor ("Stop Work Order"), require the Contractor and its subcontractors to stop all, or any part, of the Work called for by this Contract for a period of ninety (90) days after a Stop-Work Order is delivered to the Contractor, and for any further period to which the parties may agree. The Order shall be specifically identified as a Stop-Work Order under this Section 30. Upon receipt of the Stop Work Order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the Work covered by the Stop Work Order during the period of Work stoppage.
- (2) Within a period of ninety (90) days after a Stop Work Order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (i) Cancel the Stop-Work Order; or
 - (ii) Terminate the Work covered by the Stop Work Order as provided in the Default or the Termination for Convenience provisions of this Contract.
- (3) If a Stop Work Order issued under this Section 30 is canceled or the period of the Stop Work Order or any extension thereof expires, the Contractor shall resume Work. In the event that the Stop Work Order was issued for reasons other than the Contractor's or any subcontractor's failure to comply with all terms and conditions of this contract, the Contracting Officer may make an equitable adjustment in the Work Schedule or Contract price, or both, and the Contract shall be modified, in writing, accordingly, if;

SPECIAL CONDITIONS
EVENT NO. 2302 FOR ROOF REPLACEMENT AND FACADE REPAIRS AT

- (i) The Stop-Work Order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of the Work; and
- (ii) The Contractor asserts its right to the adjustment in writing, addressed to the Contracting Officer, within ten (10) days after the end of the period of Work stoppage;
- (4) If a Stop Work Order is not canceled and the Work covered by the Stop Work Order is terminated for the convenience of the CHA, the Contracting Officer shall allow reasonable costs resulting from the Stop Work Order pursuant to the Termination for Convenience provisions in paragraph 34 of the contract.
- (5) The Contractor shall flow down the provisions of this Section 30 titled "Suspension of Work, Delays, and Stop Work Orders" to its subcontractors at every tier.

31. Disputes

- (g) It is expressly agreed by the Contractor that in no event shall it be entitled to bring any legal action or claim pursuant to this Contract or any amendment thereto upon the passing of one (1) calendar year after the termination of this Contract, or the Final Completion of the Project, whichever shall occur earliest, notwithstanding any other provision at law or under this Contract.
- (h) This Contract shall not create any rights or benefits to parties other than the CHA and the Contractor, except such other rights as may be specifically called for herein.
- (i) The Contractor shall flow down the provisions of this Section 31 titled "Disputes" to its subcontractors at every tier.

32. Default

- (d) The CHA may, upon delivery of written notice to the Contractor, without prejudice of any other rights or remedies of the CHA, terminate the Contractor's right to proceed with the Work for default, if one (1) or more of the following material defaulting events occur, including, but not limited to:
 - (1) The Contractor fails to execute, deliver and/or furnish the bond and insurance certificates required and specified within ten (10) business days after notification of Contract award.
 - (2) The Contractor files for, or is forced by creditors into a suit for, bankruptcy or any other action in insolvency.
 - (3) The Contractor fails to maintain continuous insurance coverage as required in Section 36, such failure to include lapses in coverage of one (1) day or more.
 - (4) The Contractor makes a general assignment for the benefit of its creditors.
 - (5) A receiver is appointed for the Contractor on account of its insolvency.

- (9) The Contractor suspends diligent prosecution of the Work or abandons the Work for ten (10) or more days.
- (10) The Contractor does not prevent the imposition of liens impacting the Project.
- (11) The Contractor makes any material misrepresentation of the Representations and Certifications to this Contract, whether intentional or not.
- (12) A loss time injury or death occurs in which an OSHA penalty is assessed.
- (13) The Contractor materially breaches its performance of the Contract.
- (14) The Contractor fails to complete the Work in accordance with the Work Schedule.
- (15) Kickbacks of employee wages, subcontractor or vendor payments, or any other payment to the Contractor or subcontractor, or its respective principals, superintendents, or foremen occur.

TRANSPORTATION PROGRAMS
49 CFR Part 23 as Amended

It is the policy of the CHA that disadvantaged and women-owned business enterprises (DBEs and WBEs respectively) as defined in 49 CFR Part 23, as amended, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this Contract. Consequently, the DBE and WBE requirements of 49 CFR Part 23, as amended, apply to this Contract.

The Contractor agrees to ensure that DBEs and WBEs as defined in 49 CFR Part 23, as amended, have maximum opportunity to participate in the performance of lower-tier subcontracts financed in whole or in part with Federal funds provided under this Contract.

Further, the Contractor agrees to provide the CHA with information on the dollar amount and name of each lower-tier subcontractor who identifies itself as DBE or WBE.

In this regard the Contractor shall take all necessary and reasonable steps in accordance with 49 CFR Part 23, as amended, to ensure that DBEs and WBEs have the maximum opportunity to compete for and perform lower-tier subcontracts. The Contractor shall not discriminate on the basis of race, creed, color, religion, ancestry, national origin, sex, affectional preference, disability, handicap, age, marital status, mental status or public assistance status in the award and performance of CHA assisted contracts.

The Contractor agrees that failure to carry out the requirements set forth herein shall constitute a breach of contract and, after the notification to the CHA, Contractor may be terminated from this Contract by the CHA or such other action or remedy as the CHA deems appropriate.

The only oral clarifications that will be provided will be those clearly related to solicitation procedures, i.e., not substantive technical information. No other oral explanation or interpretation will be provided. Any information given a prospective bidder concerning this solicitation will be furnished promptly to all other prospective bidders as a written amendment to the solicitation, if that information is necessary in submitting bids, or if the lack of it would be prejudicial to other prospective bidders.

(b) Any information obtained by, or provided to, a bidder other than by formal amendment to the solicitation shall not constitute a change to the solicitation.

3. Amendments to Invitations for Bids

(a) If this solicitation is amended, then all terms and conditions which are not modified remain unchanged.

(b) Bidders shall acknowledge receipt of any amendment to this solicitation (1) by signing and returning the amendment, (2) by identifying the amendment number and date on the bid form, or (3) by letter, telegram, or facsimile, if those methods are authorized in the solicitation. The PHA/IHA must receive acknowledgement by the time and at the place specified for receipt of bids. Bids which fail to acknowledge the bidder's receipt of any amendment will result in the rejection of the bid if the amendment(s) contained information which substantively changed the PHA's/IHA's requirements.

(c) Amendments will be on file in the offices of the PHA/IHA and the Architect at least 7 days before bid opening.

4. Responsibility of Prospective Contractor

(a) The PHA/IHA will award contracts only to responsible prospective contractors who have the ability to perform successfully under the terms and conditions of the proposed contract. In determining the responsibility of a bidder, the PHA/IHA will consider such matters as the bidder's:

- (1) Integrity;
- (2) Compliance with public policy;
- (3) Record of past performance; and
- (4) Financial and technical resources (including construction and technical equipment).

(b) Before a bid is considered for award, the bidder may be requested by the PHA/IHA to submit a statement or other documentation regarding any of the items in paragraph (a) above. Failure by the bidder to provide such additional information shall render the bidder nonresponsible and ineligible for award.

5. Late Submissions, Modifications, and Withdrawal of Bids

(a) Any bid received at the place designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and it:

(1) Was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);

(2) Was sent by mail, or if authorized by the solicitation, was sent by telegram or via facsimile, and it is determined by the PHA/IHA that the late receipt was due solely to mishandling by the PHA/IHA after receipt at the PHA/IHA; or

(3) Was sent by U.S. Postal Service Express Mail Next Day Service - Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term "working days" excludes weekends and observed holidays.

(b) Any modification or withdrawal of a bid is subject to the same conditions as in paragraph (a) of this provision.

(c) The only acceptable evidence to establish the date of mailing of a late bid, modification, or withdrawal sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the bid, modification, or withdrawal shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, bidders should request the postal clerk to place a hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(d) The only acceptable evidence to establish the time of receipt at the PHA/IHA is the time/date stamp of PHA/IHA on the proposal wrapper or other documentary evidence of receipt maintained by the PHA/IHA.

(e) The only acceptable evidence to establish the date of mailing of a late bid, modification, or withdrawal sent by Express Mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service-Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. "Postmark" has the same meaning as defined in paragraph (c) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, bidders should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and Failure by a bidder to acknowledge receipt of the envelope or wrapper.

(f) Notwithstanding paragraph (a) of this provision, a late modification of an otherwise successful bid that makes its terms more favorable to the PHA/IHA will be considered at any time it is received and may be accepted.

(g) Bids may be withdrawn by written notice, or if authorized by this solicitation, by telegram (including mailgram) or facsimile machine transmission received at any time before the exact time set for opening of bids; provided that written confirmation of telegraphic or facsimile withdrawals over the signature of the bidder is mailed and postmarked prior to the specified bid opening time. A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for opening of bids, the identity of the person requesting withdrawal is established and the person signs a receipt for the bid.

6. Bid Opening

All bids received by the date and time of receipt specified in the solicitation will be publicly opened and read. The time and place of opening will be as specified in the solicitation. Bidders and other interested persons may be present.

7. Service of Protest

(a) Definitions. As used in this provision:

"Interested party" means an actual or prospective bidder whose direct economic interest would be affected by the award of the contract.

"Protest" means a written objection by an interested party to this solicitation or to a proposed or actual award of a contract pursuant to this solicitation.

(b) Protests shall be served on the Contracting Officer by obtaining written and dated acknowledgement from —

[Contracting Officer designate the official or location where a protest may be served on the Contracting Officer]

(c) All protests shall be resolved in accordance with the PHA's/IHA's protest policy and procedures, copies of which are maintained at the PHA/IHA.

8. Contract Award

(a) The PHA/IHA will evaluate bids in response to this solicitation without discussions and will award a contract to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the PHA/IHA considering only price and any price-related factors specified in the solicitation.

(b) If the apparent low bid received in response to this solicitation exceeds the PHA's/IHA's available funding for the proposed contract work, the PHA/IHA may either accept separately priced items (see 8(e) below) or use the following procedure to determine contract award. The PHA/IHA shall apply in turn to each bid (proceeding in order from the apparent low bid to the high bid) each of the separately priced bid deductible items, if any, in their priority order set forth in this solicitation. If upon the application of the first deductible item to all initial bids, a new low bid is within the PHA's/IHA's available funding, then award shall be made to that bidder. If no bid is within the available funding amount, then the PHA/IHA shall apply the second deductible item. The PHA/IHA shall continue this process until an evaluated low bid, if any, is within the PHA's/IHA's available funding. If upon the application of all deductibles, no bid is within the PHA's/IHA's available funding, or if the solicitation does not request separately priced deductibles, the PHA/IHA shall follow its written policy and procedures in making any award under this solicitation.

(c) In the case of tie low bids, award shall be made in accordance with the PHA's/IHA's written policy and procedures.

(d) The PHA/IHA may reject any and all bids, accept other than the lowest bid (e.g., the apparent low bid is unreasonably low), and waive informalities or minor irregularities in bids received, in accordance with the PHA's/IHA's written policy and procedures.

(e) Unless precluded elsewhere in the solicitation, the PHA/IHA may accept any item or combination of items bid.

(f) The PHA/IHA may reject any bid as nonresponsive if it is materially unbalanced as to the prices for the various items of work to be performed. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

(g) A written award shall be furnished to the successful bidder within the period for acceptance specified in the bid and shall result in a binding contract without further action by either party.

9. Bid Guarantee (applicable to construction and equipment contracts exceeding \$25,000)

All bids must be accompanied by a negotiable bid guarantee which shall not be less than five percent (5%) of the amount of the bid. The bid guarantee may be a certified check, bank draft, U.S. Government Bonds at par value, or a bid bond secured by a surety company acceptable to the U.S. Government and authorized to do business in the state where the work is to be performed. In the case where the work under the contract will be performed on an Indian reservation area, the bid guarantee may also be an irrevocable Letter of Credit (see provision 10, Assurance of Completion, below). Certified checks and bank drafts must be made payable to the order of the PHA/IHA. The bid guarantee shall insure the execution of the contract and the furnishing of a method of assurance of completion by the successful bidder as required by the solicitation. Failure to submit a bid guarantee with the bid shall result in the rejection of the bid. Bid guarantees submitted by unsuccessful bidders will be returned as soon as practicable after bid opening.

10. Assurance of Completion

(a) Unless otherwise provided in State law, the successful bidder shall furnish an assurance of completion prior to the execution of any contract under this solicitation. This assurance may be [Contracting Officer check applicable items] —

[] (1) a performance and payment bond in a penal sum of 100 percent of the contract price; or, as may be required or permitted by State law;

[] (2) separate performance and payment bonds, each for 50 percent or more of the contract price;

[] (3) a 20 percent cash escrow;

[] (4) a 25 percent irrevocable letter of credit; or,

[] (5) an irrevocable letter of credit for 10 percent of the total contract price with a monitoring and disbursements agreement with the IHA (applicable only to contracts awarded by an IHA under the Indian Housing Program).

(b) Bonds must be obtained from guarantee or surety companies acceptable to the U.S. Government and authorized to do business in the state where the work is to be performed. Individual sureties will not be considered. U.S. Treasury Circular Number 570, published annually in the Federal Register, lists companies approved to act as sureties on bonds securing Government contracts, the maximum underwriting limits on each contract bonded, and the States in which the company is licensed to do business. Use of companies listed in this circular is mandatory. Copies of the circular may be downloaded on the U.S. Department of Treasury website <http://www.fms.treas.gov/c570/index.html>, or ordered for a minimum fee by contacting the Government Printing Office at (202) 512-2168.

(c) Each bond shall clearly state the rate of premium and the total amount of premium charged. The current power of attorney for the person who signs for the surety company must be attached to the bond. The effective date of the power of attorney shall not precede the date of the bond. The effective date of the bond shall be on or after the execution date of the contract.

(d) Failure by the successful bidder to obtain the required assurance of completion within the time specified, or within such extended period as the PHA/IHA may grant based upon reasons determined adequate by the PHA/IHA, shall render the bidder ineligible for award. The PHA/IHA may then either award the contract to the next lowest responsible bidder or solicit new bids. The PHA/IHA may retain the ineligible bidder's bid guarantee.

11. Preconstruction Conference (applicable to construction contracts)

After award of a contract under this solicitation and prior to the start of work, the successful bidder will be required to attend a preconstruction conference with representatives of the PHA/IHA and its architect/engineer, and other interested parties convened by the PHA/IHA. The conference will serve to acquaint the participants with the general plan of the construction operation and all other requirements of the contract (e.g., Equal Employment Opportunity, Labor Standards). The PHA/IHA will provide the successful bidder with the date, time, and place of the conference.

12. Indian Preference Requirements (applicable only if this solicitation is for a contract to be performed on a project for an Indian Housing Authority)

(a) HUD has determined that the contract awarded under this solicitation is subject to the requirements of section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(b)). Section 7(b) requires that any contract or subcontract entered into for the benefit of Indians shall require that, to the greatest extent feasible

(1) Preferences and opportunities for training and employment (other than core crew positions; see paragraph (h) below) in connection with the administration of such contracts or subcontracts be given to qualified "Indians." The Act defines "Indians" to mean persons who are members of an Indian tribe and defines "Indian tribe" to mean any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians; and,

(2) Preference in the award of contracts or subcontracts in connection with the administration of contracts be given to Indian organizations and to Indian-owned economic enterprises, as defined in section 3 of the Indian Financing Act of 1974 (25 U.S.C. 1452). That Act defines "economic enterprise" to mean any Indian-owned commercial, industrial, or business activity established or organized for the purpose of profit, except that the Indian ownership must constitute not less than 51 percent of the enterprise; "Indian organization" to mean the governing body of any Indian tribe or entity established or recognized by such governing body; "Indian" to mean any person who is a member of any tribe, band, group, pueblo, or community which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs and any "Native" as defined in the Alaska Native Claims Settlement Act; and Indian "tribe" to mean any Indian tribe, band, group, pueblo, or community including Native villages and Native groups (including

corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs.

(b) (1) The successful Contractor under this solicitation shall comply with the requirements of this provision in awarding all subcontracts under the contract and in providing training and employment opportunities.

(2) A finding by the IHA that the contractor, either (i) awarded a subcontract without using the procedure required by the IHA, (ii) falsely represented that subcontracts would be awarded to Indian enterprises or organizations; or, (iii) failed to comply with the contractor's employment and training preference bid statement shall be grounds for termination of the contract or for the assessment of penalties or other remedies.

(c) If specified elsewhere in this solicitation, the IHA may restrict the solicitation to qualified Indian-owned enterprises and Indian organizations. If two or more (or a greater number as specified elsewhere in the solicitation) qualified Indian-owned enterprises or organizations submit responsive bids, award shall be made to the qualified enterprise or organization with the lowest responsive bid. If fewer than the minimum required number of qualified Indian-owned enterprises or organizations submit responsive bids, the IHA shall reject all bids and readvertise the solicitation in accordance with paragraph (d) below.

(d) If the IHA prefers not to restrict the solicitation as described in paragraph (c) above, or if after having restricted a solicitation an insufficient number of qualified Indian enterprises or organizations submit bids, the IHA may advertise for bids from non-Indian as well as Indian-owned enterprises and Indian organizations. Award shall be made to the qualified Indian enterprise or organization with the lowest responsive bid if that bid is -

(1) Within the maximum HUD-approved budget amount established for the specific project or activity for which bids are being solicited; and

(2) No more than the percentage specified in 24 CFR 905.175(c) higher than the total bid price of the lowest responsive bid from any qualified bidder. If no responsive bid by a qualified Indian-owned economic enterprise or organization is within the stated range of the total bid price of the lowest responsive bid from any qualified enterprise, award shall be made to the bidder with the lowest bid.

(e) Bidders seeking to qualify for preference in contracting or subcontracting shall submit proof of Indian ownership with their bids. Proof of Indian ownership shall include but not be limited to:

(1) Certification by a tribe or other evidence that the bidder is an Indian. The IHA shall accept the certification of a tribe that an individual is a member.

(2) Evidence such as stock ownership, structure, management, control, financing and salary or profit sharing arrangements of the enterprise.

(f) (1) All bidders must submit with their bids a statement describing how they will provide Indian preference in the award of subcontracts. The specific requirements of that statement and the factors to be used by the IHA in determining the statement's adequacy are included as an attachment to this solicitation. Any bid that fails to include the required statement shall be rejected as nonresponsive. The IHA may require that comparable statements be provided by subcontractors to the successful Contractor, and may require the Contractor to reject any bid or proposal by a subcontractor that fails to include the statement.

(2) Bidders and prospective subcontractors shall submit a certification (supported by credible evidence) to the IHA in any instance where the bidder or subcontractor believes it is infeasible to provide Indian preference in subcontracting. The acceptance or rejection by the IHA of the certification shall be final. Rejection shall disqualify the bid from further consideration.

(g) All bidders must submit with their bids a statement detailing their employment and training opportunities and their plans to provide preference to Indians in implementing the contract; and the number or percentage of Indians anticipated to be employed and trained. Comparable statements from all proposed subcontractors must be submitted. The criteria to be used by the IHA in determining the statement(s)'s adequacy are included as an attachment to this solicitation. Any bid that fails to include the required statement(s), or that includes a statement that does not meet minimum standards required by the IHA shall be rejected as nonresponsive.

(h) Core crew employees. A core crew employee is an individual who is a bona fide employee of the contractor at the time the bid is submitted; or an individual who was not employed by the bidder at the time the bid was submitted, but who is regularly employed by the bidder in a supervisory or other key skilled position when work is available. Bidders shall submit with their bids a list of all core crew employees.

(i) Preference in contracting, subcontracting, employment, and training shall apply not only on-site, on the reservation, or within the IHA's jurisdiction, but also to contracts with firms that operate outside these areas (e.g., employment in modular or manufactured housing construction facilities).

(j) Bidders should contact the IHA to determine if any additional local preference requirements are applicable to this solicitation.

(k) The IHA ☐ does ☐ does not [Contracting Officer check applicable box] maintain lists of Indian-owned economic enterprises and Indian organizations by specialty (e.g., plumbing, electrical, foundations), which are available to bidders to assist them in meeting their responsibility to provide preference in connection with the administration of contracts and subcontracts.

JOSE MALDONADO
President / Owner

President / Owner of Old Veteran Construction, Inc. (OVC, Inc.), Mr. Jose Maldonado, has been in the construction industry for over 30 years. His introduction into construction began as a laborer for a local masonry contractor. With greater aspirations, he began Old Veteran Tuck Pointing in 1986 as a sole proprietor specializing in masonry restoration.

After years as an established small masonry contractor, to further his goals and business opportunities, in 1993 Old Veteran Tuck Pointing became Old Veteran Construction, Inc. (OVC, Inc.). As founder, Mr. Maldonado has been President and remains 100% shareholder.

In 1986, Mr. Maldonado and Old Veteran Construction, Inc. obtained certification with the City of Chicago as a Minority Business Enterprise (M.B.E.). As a small minority businessman, this certification offered him the opportunity to gain the experience and knowledge necessary to pursue his goals.

Subsequently, after several prosperous years of working as a masonry subcontractor for numerous General Contractors in the Chicagoland area, once again, Mr. Maldonado had greater aspirations for his small M.B.E. firm. He began bidding and performing on masonry projects as a General Contractor.

As an emerging small minority businessman, Mr. Maldonado has successfully managed a staff from as little as six employees to currently over 50+ (several of which have been with OVC, Inc. for over 10 years).

As President & CEO of Old Veteran Construction, Inc., his responsibilities include, but are not limited to, the following:

- Responsible for the administration, management and supervision of all contracts undertaken by the firm
- Negotiates and approves all contracts undertaken by the firm
- Establishes company policy and procedures
- Approves acquisition of all major supplies and equipment
- Supervises the hiring and dismissal of personnel
- Makes final decision on all financial issues
- Supervision and final review on all bid documents
- General supervision of all business operations
- Participates as an Executive Director for any and all Joint Venture related projects

D&R Construction ***Project Manager*** **2000 – 2001**

➤ **Simon Corp. – Facility Modernization – Orland Park, IL**

Project Manager

Common Area Improvement. In 1970's the Orland Square Shopping Center was designed as an interior shopping facility with large 'sunken' seating areas for patrons surrounded by indoor landscaping, etc. By the year 2000, the retail industry began to realize the value of fully utilizing the available space, small businesses that could be run from kiosk counters, like street vendors, were becoming very popular revenue streams. The Simon Properties Group weighed the options and decided to 'fill-in' one of their large (3500 sf.) 'sunken' seating areas to provide room for up to twelve (12) of the new 'kiosk' retailers. First, the work was isolated from public foot traffic and walled off by the erection of a long 250' barricade. The complete the actual scope of work, mini-excavators were deployed within the work zone to demolish and bury the sunken seating area. Several smaller vehicles were kept busy moving spoils out of the excavation zone and then moving gravel back into the work area to level the final grade of the finished floor. After grading the aggregates, electrical conduits were laid beneath the finished floor to provide high and low voltage wiring to the future kiosk locations. To reach the interior of the large shopping center a concrete pump with adequate hose was snaked through facility corridors. After the slab had hardened a crew of tile setters began to lay down marble tile to match the existing floor covering. Project Value: \$250,000.00

➤ **Simon Corp. – Facility Improvements – Orland Park, IL**

Project Manager

Work featured the installation of remote storage areas. These small, often hidden, storage areas allowed the Orland Square facility to offer secure storage units to retail clients who were in need of a place to keep extra stock, unused furniture, etc. Project Value: \$75,000.00

➤ **Unicco Corp. – Simon Corp. & Various Owners – Retail Build-Outs – Orland Park, IL**

Project Manager

Many retailers looking to set up shop in the Orland Square Shopping facility would solicit help from local contractors rather than hire the facility directly. These retailers included popular shops, such as Bailey Banks and Biddle, Charlotte Russe, Wizards of the Coast, Aerospatiale, Bath and Body, etc. Contract would include one, or all, of the following: Site Work and Selective Demolition, Metal Framing, Drywall and Finishes, Electrical Lighting Systems, Plumbing and Mechanical Systems, Fire Protection, Etc. Project Value: \$150,000.00

➤ **Unicco Corp. – Barricades and Demolition – Orland Park, IL**

Project Manager

Another independent revenue stream created by installing temporary barricades, many installed at night. Scheduled workmen and materials to install barricades at a time convenient to the facility (one of the biggest obstacles). Following installation of barricades, the firm moved on to the demolition phase. The demo phase typically involved the complete removal all existing equipment, systems, finishes, etc. The intention of the work was to provide a clean generic space for build out by the original tenant. Project Value: \$150,000.00

**ADJECTIVE RATINGS AND DEFINITIONS TO BE USED TO BEST REFLECT
YOUR EVALUATION OF THE CONTRACTOR'S PERFORMANCE**

RATING	DEFINITION	NOTE
(E) Exceptional	Performance meets contractual requirements and exceeds many to the Government/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.	An Exceptional rating is appropriate when the Contractor successfully performed multiple significant events that were of benefit to the Government/Owner. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.
(VG) Very Good	Performance meets contractual requirements and exceeds some to the Government's/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.	A Very Good rating is appropriate when the Contractor successfully performed a significant event that was a benefit to the Government/Owner. There should have been no significant weaknesses identified.
(S) Satisfactory	Performance meets minimum contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.	A Satisfactory rating is appropriate when there were only minor problems, or major problems that the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. Per DOD policy, a fundamental principle of assigning ratings is that contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract.
(M) Marginal	Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.	A Marginal is appropriate when a significant event occurred that the contractor had trouble overcoming which impacted the Government/Owner.
(U) Unsatisfactory	Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.	An Unsatisfactory rating is appropriate when multiple significant events occurred that the contractor had trouble overcoming and which impacted the Government/Owner. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating.
(N) Not Applicable	No information or did not apply to your contract	Rating will be neither positive nor negative.
