62% of all public housing work-able families are employed and have an average income of $21,408 as of the third quarter of 2018 (Q3 2018).

*Sept 2018: The Bureau of Labor Statistics reported that the Employment Participation rate in Illinois was 61.8%. CHA resident labor participation aligns with the statewide rate.

This summer CHA offered 11 paid programs to youth and engaged over 2,600 youth in summer programming. The youth earned $2.9M in wages and worked almost 400,000 hours collectively.

Work able heads of households that maintained employment from 2017 through 2018 had an average wage increase of almost $1,600 annually. On average households earned almost $23,000 annually, which is 6% higher than the population average.

In 2014, CHA’s Resident Services established a goal of 60% of all workable families earning income from wages. Since Q4 2014, CHA’s families have achieved this goal every quarter for the last 15 quarters.
In 2018, 32 families purchased a home through CHA’s Choose to Own (CTO) Program, reaching the annual goal before the end of the Q3 2018. Since 2002, CTO participants have purchased over 581 homes in the City of Chicago, with 25% moving off subsidy.

As of Q3 2018, CHA’s FSS Program had 32 graduates who earned an average of $9,200 payout in escrow. Furthermore, the program enrolled over 150 new participants in 2018 and almost 60% of participants have accrued escrow - up from 36% at the start of the year.

In the last calendar year, over 4,000 CHA public housing households have increased their total tenant payment due to a result of higher wages and earnings, resulting in $475,000 in decreased monthly subsidies.
ACADEMIC ACHIEVEMENT

Learn and Earn Sites Showcase Summer Learning Gains for 2018

Many students returning to school from summer break suffer from “Summer Learning Loss”, which occurs when students start the academic year with achievement levels lower than they were at the beginning of summer. CHA’s summer programming seeks to minimize this loss. This year, Learn & Earn students posted summer learning gains in 2018. **Learn & Earn sites ended the summer two months further along in reading and nine months further along in math!**

As of Q3 2018, approximately **350 CHA families** moved into mobility areas through CHA’s mobility program, **surpassing the total for all of 2017**! Mobility areas are communities throughout the city with lower poverty and crime, and have a higher concentration of jobs.

In an effort to improve residents’ food security, **CHA’s Golden Diners** programs served over **200,000** meals to residents, while **Summer Food Sites** added **63,000** at 35 sites citywide. In addition to the healthy meals, these programs also offer nutritional education and exercise classes at various locations.
